Rock-a-Bully Benefit Concert
Lamplighter Inn Tavern & Grille

Wednesday September 25: 9AM-Noon
Car Seat Check Event
Palatine Police Department

Friday September 27 – Saturday September 28
Palatine Kiwanis Peanut Days
On Village streets and at various retail stores

Sunday October 6: 1:30PM-4:30PM
Clayson House Museum Anniversary Celebration
Clayson House Museum

V. RECESS TO THE COMMITTEE OF THE WHOLE – Time: 7:04 PM**Recess to Committee of the Whole - Motion Carried by Voice Vote**

RESULT:	MOTION CARRIED BY VOICE VOTE [UNANIMOUS]
MOVER:	Kollin Kozlowski, District 5 Councilman
SECONDER:	Scott Lamerand, District 2 Councilman
AYES:	Millar, Lamerand, Solberg, Kozlowski
ABSENT:	Myslinski, Helms

VI. COMMITTEE OF THE WHOLE**A. POLICE POLICY & CODE SERVICES COMMITTEE – Time: 7:04 PM**

DOUG MYSLINSKI, CHAIRMAN

In the absence of Chairman Doug Myslinski, Vice Chairman Greg Solberg opened the Police Policy & Code Services Committee Meeting.

1. Consider an Ordinance Granting Setback Variations, an Accessory Structure Floor Area Variation, and a Lot Coverage Variation all to Permit Various Improvements at 1360 E. Joan Drive - **Motion Carried by Voice Vote** (Council District: Five)

Planning & Zoning Director Ben Vyverberg stated that since the July 15, 2019 Village Council review, the Petitioner provided all of the required dimensions for the non-conforming areas of the deck, driveway, and brick paver walkway proposing to remove portions of the deck and paver walk, thus eliminating 2 of the initial 8 variations requested. Based upon the review and confirmation of square footage of the resubmittal, a portion of the driveway is set back 1.7 feet, instead of the minimum required 2 feet. To comply with the Code requirements, it would be necessary to remove approximately 2 square feet of the driveway. The Petitioner would like to maintain the driveway in its current condition. The driveway was improved in conjunction with a 2005 building permit.

With the proposed removal of portions of the existing deck and paver patio, a lot coverage variation for 48% (max 45% permitted) would still be required. This would include the 2 square feet of the driveway the Petitioner wants maintained. To comply with the maximum lot coverage allowed, an additional 226 square feet of impervious surfaces would have to be removed. Total floor area of accessory structures to be 22% (max. 10% permitted). The Village Engineer did not identify any specific storm water concerns with this proposal. Based on the revised proposal, Staff recommends action at the discretion of the Village Council for the resulting six variations requested.

Councilman Kozlowski reiterated the driveway encroaches on 2 feet of the side yard setback.

RESULT:	MOTION CARRIED BY VOICE VOTE [UNANIMOUS]
MOVER:	Kollin Kozlowski, District 5 Councilman
SECONDER:	Tim Millar, District 1 Councilman
AYES:	Schwantz, Millar, Lamerand, Solberg, Kozlowski
ABSENT:	Myslinski, Helms

2. As Submitted -

Mayor Schwantz clarified that any comments regarding the topic of marijuana legalization coming in to the Council or administration will be collected and brought up in a scheduled discussion.

Village Manager Reid Ottesen stated that the municipality recognizes that it is federally illegal, but legalized by the state. Making it illegal in Palatine could be costly with legal challenges occurring. This has happened in other municipalities.

B. INFRASTRUCTURE & ENVIRONMENT COMMITTEE – Time: 7:12 PM

KOLLIN KOZLOWSKI, CHAIRMAN

1. Consider a Motion Authorizing the Village Manager to Approve the Purchase of an Asphalt Roller - **Approved by Voice Vote**

Public Works Director Matt Barry explained as part of the 2019 Capital Equipment Replacement Budget, the Village Council has appropriated \$55,620 in funds for the replacement of a 1999 Ingersoll Rand asphalt roller which was recommended for replacement after an inspection, evaluation, and life-cycle cost analysis. As part of the vehicle replacement schedule, this 1999 roller will be sent to auction when decommissioned.

Funds of \$55,620 have been appropriated in the 2019 Capital Equipment Replacement Budget to accommodate this purchase. \$5,150 from a trailer purchase that was deferred this year can cover the \$2,234 shortfall. Staff recommends authorizing the Village Manager to approve the purchase of one 2019 Caterpillar CB36B asphalt roller with 12 hours on it through the Sourcewell Contract #032119 from Altorfer Caterpillar of Elmhurst, Illinois in the amount of \$57,854.

In response to Councilman Kozlowski, Barry stated that we do share implements with the Park District.

RESULT:	APPROVED BY VOICE VOTE [UNANIMOUS]
MOVER:	Scott Lamerand, District 2 Councilman
SECONDER:	Tim Millar, District 1 Councilman
AYES:	Schwantz, Millar, Lamerand, Solberg, Kozlowski
ABSENT:	Myslinski, Helms

2. Consider a Motion Authorizing the Village Manager to Approve the Purchase of a Heavy Duty In-Ground Truck Lift - **Approved by Voice Vote**

Public Works Director Matt Barry explained as part of the Capital Equipment Replacement Budget for 2020, Staff has requested \$140,000 for the replacement of a heavy-duty in-ground truck lift in the fleet services shop. The existing lift did not pass its recent annual certification due to safety locks not working properly and leakage from the hydraulic cylinders.

Rotary Lift has a joint-purchase contract through Sourcewell, of which the Village is a member. Staff requested a Sourcewell quote for a Rotary retrofit underground lift. The total cost is \$129,511.68, which includes the new equipment and the labor to remove the existing lift and install the new lift. The new lift would be expected to last at least 30 years. Staff recommends authorizing the Village Manager to approve the purchase and installation of a Rotary retrofit lift through Sourcewell Contract #061015-RRL from Rotary Lift of Madison, Indiana in the amount of \$129,512. The use of fund balance is requested to accommodate this proposed purchase. This item has been part of our multi-year plan with the targeted expense originally planned for 2020. Authorizing the accelerated request at this time will result in a corresponding reduction in the capital equipment purchase request for 2020.

Councilman Kozlowski asked for clarification on funding from Village Manager Reid Ottesen who stated that the 2020 budget will be reduced by the early purchase.

RESULT:	APPROVED BY VOICE VOTE [UNANIMOUS]
MOVER:	Jim Schwantz, Mayor
SECONDER:	Scott Lamerand, District 2 Councilman
AYES:	Schwantz, Millar, Lamerand, Solberg, Kozlowski
ABSENT:	Myslinski, Helms

3. As Submitted -

Nothing was submitted.

C. BUSINESS FINANCE & BUDGET COMMITTEE – Time: 7:17 PM

GREG SOLBERG, CHAIRMAN

1. Consider a Resolution Authorizing the Redemption of Outstanding General Obligation Bonds, Series 2011A of the Village of Palatine, Illinois - **Adopted by Voice Vote**

Finance Director Paul Mehring presented the review of its outstanding debt for opportunities to reduce the debt burden and cost of borrowing to its residents. Staff has identified available cash on hand to redeem \$3,000,000 outstanding General Obligation Bonds, Series 2011A on December 1, 2018. The redemption of these bonds will reduce outstanding debt by \$3,000,000; and provide an interest savings of \$200,000. Staff recommends that these bonds be redeemed on December 1, 2019.

RESULT:	ADOPTED BY VOICE VOTE [UNANIMOUS]
MOVER:	Jim Schwantz, Mayor
SECONDER:	Scott Lamerand, District 2 Councilman
AYES:	Schwantz, Millar, Lamerand, Solberg, Kozlowski
ABSENT:	Myslinski, Helms

VI. COMMITTEE OF THE WHOLE

A. COMMUNITY & ECONOMIC DEVELOPMENT COMMITTEE – Time: 7:02 PM

SCOTT LAMERAND, CHAIRMAN

1. Consider an Ordinance Approving a Preliminary Planned Development to Permit a 26-Unit Townhome Development at 1150 W. Euclid Avenue - **Motion Failed by Roll Call** (Council District: Two)

Planning & Zoning Director Ben Vyverberg presented the Petitioner's Revised 2019 Preliminary Planned Development proposal for a 26-unit residential townhouse development in 5 buildings with a density of 5.5 units/acre and 13 guest parking spaces, after a larger proposal was denied in 2018. The private drive meets code. The property was annexed in 1979, developed by Fluke in 1984 and later, Trace Industries. The current property owner, National Testing Systems ceased operations in 2015. The previous comprehensive use plan designated this property as office/research and the current plan is for continued business use. The Plan Commission voted 7-2 to approve the request for land use amendment and Preliminary Planned Development.

Village Manager Reid Ottesen clarified that any change in land use is a policy decision to be made by the Village Council.

In response to Councilman Lamerand, Ottesen stated others who have expressed interest in the property include: senior housing, residential developers, business owners and commercial brokers.

Councilman Lamerand asked the Councilmen if they favored the land use change.

Mayor Schwantz, Councilmen Myslinski, Millar, and Solberg stated they are not ready to give up on potential office, research or light manufacturing uses which are better for taxes.

Ottesen stated it is office/research with a loading dock, manufacturing would require approval.

Councilman Kozlowski asked to hear from the petitioner.

Tom Burney, Attorney for Lexington, addressed the Council and noted that Herman Brandt owned the large parcel from Quentin to Roselle and was recommended for office/research and over time M. Johnson changed some of the land use to residential. The owner has indicated that the building is not commercially reasonable. Neighbors immediately to the east are concerned about the future use of this parcel.

Councilman Lamerand stated that the residents hated the proposal. Burney

stated that Lexington has responded to all Staff, Plan Commission and neighbors' concerns in the revised plan. The Village itself has changed this corridor to residential, with only this last remaining parcel which Weber did not want and may sit vacant waiting for office/research development.

Nate Wynsma, Lexington Homes, the contract buyer, stated that while working with the Plan Commission, he was approached by a group similar to Trace labs, who after seeing the property and building, they realized their use would require entitlement, and the building was not feasible. Since no one from the neighborhood is here tonight, indicating their acceptance of the proposed Lexington development.

Village Attorney Patrick Brankin stated that the vote must be on the main motion, not separating land use from the proposed development.

In response to Councilman Kozlowski, Ottesen stated that the set backs conform with requests from staff who still have concerns with fencing, proposed vinyl fencing along Euclid. They met many staff requests.

Burney asked for a continuance to determine office/research interest, denied by Councilman Lamerand, stressing that this is preliminary for feedback. Burney stated that the vote is for an Ordinance that, if failed, they would have to start over again.

Village Attorney Brankin stated Preliminary approval is preliminary - advisory only. Burney requested to table or continue this item. Brankin stated if preliminary is denied, the petitioner can come back again with the same preliminary plan, but that's not often the way it occurs.

RESULT:	MOTION FAILED BY ROLL CALL [1 TO 6]
MOVER:	Kollin Kozlowski, District 5 Councilman
SECONDER:	Doug Myslinski, District 3 Councilman
AYES:	Kozlowski
NAYS:	Schwantz, Millar, Lamerand, Myslinski, Solberg, Helms

2. As Submitted -

Nothing was submitted.

B. POLICE POLICY & CODE SERVICES COMMITTEE – Time: 7:29 PM

DOUG MYSLINSKI, CHAIRMAN

1. Consider a Motion Granting a Waiver of the Village's Sound Amplification Ordinance on September 20, 2019 for Midtown Athletic Club's 'Summer Concert & Food Truck' Event at 1760 N. Hicks Road - **Approved by Voice Vote** (Council District: One)

Village Manager Reid Ottesen reported Midtown Athletic Club is planning a second Concert & Food Truck event, selling food and drink specials, for 100 members and guests, on Friday, September 20, 2019, to include a live band requiring a waiver of the Village's Sound Amplification Ordinance from 7-9 PM. Based on prior event, staff recommends approval.

Dina Casso, Midtown Athletic Club, stated the purpose is to give back to the members.

RESULT:	APPROVED BY VOICE VOTE [UNANIMOUS]
MOVER:	Tim Millar, District 1 Councilman
SECONDER:	Jim Schwantz, Mayor
AYES:	Schwantz, Millar, Lamerand, Myslinski, Solberg, Kozlowski, Helms

2. Consider an Ordinance Increasing the Number of Class D (Restaurant) Liquor Licenses by One for Garcia's Mexican Food Co. (D/B/A El Rancho Alegre) at 1160 E. Dundee Road - **Motion Carried by Voice Vote** (Council District: Four)

Village Manager Reid Ottesen reported on August 5, 2019, the Village Council approved a request for an Amended Special Use for Garcia's Mexican Food Co. (d/b/a El Rancho Alegre) located at 1160 E. Dundee Road. Owner, Azucena Garcia Zetina, is applying for a Class D (Restaurant) Liquor License.

RESULT:	MOTION CARRIED BY VOICE VOTE [UNANIMOUS]
MOVER:	Jim Schwantz, Mayor
SECONDER:	Tim Millar, District 1 Councilman
AYES:	Schwantz, Millar, Lamerand, Myslinski, Solberg, Kozlowski, Helms

3. Discussion and Direction Regarding the Regulation of Recreational Marijuana Manufacturing and Sales -

Village Attorney Patrick Brankin reported on June 25th, Governor Pritzker signed Public Act 101 0027 (Cannabis Regulation and Tax Act) which becomes effective January 1, 2020. The Act legalizes the private consumption and possession of cannabis for Illinois residents over the age of 21. The Act also has language that would prohibit municipalities from restricting the possession or use of cannabis. However, the Act does provide local authority related to the production and dispensing (sale) of cannabis. Licensing is under the state, and have begun to be granted. Municipalities do control land use authority. Municipal authority may:

1. These establishments can be prohibited.
2. Municipality may regulate establishments, location, and zoning,
3. Council may adopt a tax on sales up to 3%.

In response to Councilman Helms, Brankin explained *public* is public or public establishment (with respect to no smoking restrictions), *private* is an

individual's home and private property. Enforcement will be a challenge.

Village Manager Reid Ottesen stated despite the actions of the legislature in Springfield, cannabis remains illegal under federal law. Sales and possession for recreational purposes can begin on January 1, 2020. The current plan put forth by the State would be for the locations approved for medicinal sales to have the first opportunity to expand to include recreational sales. It is anticipated that the first recreational only establishments would likely open in 2021. Based upon the language of the Illinois Act, the Village needs to take one of several actions. If we do nothing, cannabis sales would be considered a Special Use as a Unique Use in every zoning district. That is not something staff would recommend. The options identified by staff based solely on the Illinois Act would be to prohibit the sales and manufacturing of cannabis in Palatine or allow the sale and/or manufacturing of cannabis in Palatine. This is a policy issue for the Village Council, thus staff makes no recommendation other than the need to take some action to avoid this being a Special Use in all zoning districts.

Ottesen stated there will be an impact and cost to allowing the use of recreational marijuana with the following matters to consider:

- Specialized Police and canine training and an increase in police calls,
- DUI training for driving under the influence of cannabis
- We will feel the impact if we allow sales or not. Doing nothing will allow someone to open shop anywhere.

Options:

1. Prohibit sales.
 2. Permit sales in specified locations with specified zoning districts or corridors.
- Separation from other establishments
 - Number of establishments
 - Distance from residential, schools, churches, daycare facilities, etc.
 - Need for state approved medical dispensary license
3. A Public Hearing is required prior to allowing the sale of recreational marijuana in a municipality.

Ottesen credited the State with careful vetting of the medical marijuana establishments, and hoped that this level of scrutiny would continue with the recreational sales.

Ottesen clarified that it is possible to prohibit today and allow in the future. At some point it may help to have an Ordinance before you to determine if it is something we do want in Palatine. Once it is allowed, it will be more difficult to rescind it. Ottesen presented a draft map of locations which would be 250 feet from schools and residences. Based on a draft Ordinance, a Public Hearing could be scheduled to get input from the residents.

Councilmen Myslinski, Solberg, Lamerand, and Mayor Schwantz want a draft ordinance on which to base opinion. By not allowing sales, we get the costs but no revenue.

In response to Mayor Schwantz and Councilman Millar, Ottesen stated that the State did say they would rebate funds to offset costs of policing, ticketing and adjudication to municipalities whether they allow recreational marijuana or not. Existing medicinal dispensaries will be licensed to sell January 1, 2020. New recreational marijuana dispensaries will be fully operational in late 2020 or 2021.

Councilmen Helms, Kozlowski, and Millar support prohibition.

Councilman Helms stated we are a community that has banned hookah shops, tattoo parlors, and video gaming; how can we in good conscious allow the sale of recreational marijuana.

Nathan Groh, 1480 Denton Ave., supports legalizing marijuana.

Joseph Qian, 2249 Thorntree, opposes legalizing marijuana with mental and physical effects, short and long term. Sale of recreational marijuana will not solve financial problems in the state, but will jeopardize the health of our children.

Paul Lopiccolo, 892 W. Goodrich Place, supports legalizing, impressed with the research and the presentation. We have recreational bars and entertainment, marijuana will be here.

March 2020 primary would be soonest to have a referendum.

Ottesen offered to prepare 2 ordinances before January 1, 2020 one to prohibit, one to regulate.

In response to Mayor Schwantz, Ottesen estimated tax revenue between \$200,000 - \$500,000.

Councilman Lamerand, since we do not have medicinal shops, we could not open a store until 2021.

Minutes Acceptance: Minutes of Sep 9, 2019 7:00 PM (APPROVAL OF MINUTES)

Consider an Ordinance Granting Setback Variations, an Accessory Structure Floor Area Variation, and a Lot Coverage Variation all to Permit Various Improvements at 1360 E. Joan Drive

This item was originally reviewed during the July 15, 2019 Village Council meeting. Since that meeting, the Petitioner has submitted all of the required dimensions and surveyed square footages of the non-conforming areas of the deck, driveway, and brick paver walkway. In order to meet the Code requirements, the Petitioner will remove the extended portions of the deck and paver walk. This eliminates 2 of the initial 8 variations requested. Based upon the review of the resubmitted information, Staff confirmed the square footage of the removed portions of the deck and paver walk. The Petitioner will remove the following:

	Approximate Square Footage of Non-compliant Areas
Deck	80 sq. ft.
Paver Walk	24 sq. ft.

With regard to the driveway extension, a portion of the driveway is set back 1.7 feet, instead of the minimum required 2 feet. In order to comply with the Code requirements, it would be necessary to remove approximately 2 square feet of the driveway. The Petitioner would like to maintain the driveway in its current condition. The driveway was improved in conjunction with a 2005 building permit.

With the proposed removal of portions of the existing deck and paver patio, a lot coverage variation for 47.67% (max 45% permitted) would still be required. This does not include the 2 square feet for the driveway the Petitioner also wishes to maintain (resulting in a lot coverage of 47.68%). In order to comply with the maximum lot coverage allowed, an additional 226 square feet of impervious surfaces would have to be removed. The Village Engineer did not identify any specific storm water concerns with this proposal.

BACKGROUND:

With the proposed changes, the Petitioner is now requesting the following relief:

1. Variation to permit an above-ground pool to be set back 15 feet from the rear lot line instead of the required 25 feet;
2. Variation to permit an attached pergola to be set back 20 feet from the rear lot line instead of the required 25 feet;
3. Variation to permit the aggregate floor area of all permitted accessory structures to be 22% instead of the maximum permitted 10%;
4. Variation to permit a driveway to be set back 1 foot from the side lot line

instead of the required 2 feet;

5. Variation to permit lot coverage to be 48% instead of the maximum permitted 45%; and
6. Variation to permit a pergola attached to the principle structure to be setback 7 feet from the side lot line instead of the required 10 feet.

KEY ISSUES:

- The Subject Property, zoned R-2 Single-Family Residential, contains approximately 8,500 square feet of land.
- The Petitioner made improvements to his property, without obtaining the required permits. The Village became aware of this in July 2018, through a proposed deck expansion, and then followed up with the Petitioner. **The Petitioner continued with the deck expansion, after the Village provided notification of the building permit requirement.** When the Petitioner applied for a building permit for the deck expansion, Staff then became aware of multiple instances of other work completed without the required building permits. The property was cited and is within the adjudication process. The following work was completed outside of the building permit process:
 1. **Deck Expansion:** The deck was expanded and is set back 6 feet from the side lot line, instead of the minimum required 10-foot setback. The ZBA did not recommend this Variation and Staff concurs. If the Village Council recommends its approval, Staff is recommending a condition requiring the execution of a hold harmless letter in a manner acceptable to the Village Attorney to provide the necessary access to the rear yard utility easement. **This is no longer applicable, as the revised plans indicate the removal of a portion of the deck that encroaches into the required setback.**
 2. **Above-Ground Pool:** An above-ground pool was added to the backyard and is set back 15 feet from the rear lot line instead of the minimum required 25 feet. A pool, when attached to the principal structure and more than 16 inches in height, shall be setback a minimum of 25 feet from the rear lot line. The Petitioner replaced a previous pool with a new pool.
 3. **Concrete Patio & Walkway:** A concrete patio and walkway were constructed in the rear yard. While these improvements meet the required setbacks, they factor into the overall lot coverage, which exceeds the maximum 45%.
 4. **Pergola:** A pergola was constructed and attached to the principle structure over the concrete patio. Per the zoning ordinance, a pergola, when attached to the principle structure and more than 16 inches above grade, shall be setback 25 feet from the rear lot line and cannot encroach into the required side yard. The pergola is set back 20 feet from the rear lot line and 7 feet from the side lot line. Although it does

not meet the required side yard setback, it exceeds the setback of a pre-existing addition to the principal structure.

5. Driveway Expansion: The driveway was expanded and is set back 1.7 feet from the side lot line, instead of the minimum required 2-foot setback.
6. Brick Paver Walkway: The brick paver walkway was constructed on the east side of the subject property. The walkway is set back 1.4 feet from the side lot line, instead of the minimum 2-foot setback. **This is no longer applicable, as the revised plans indicate the removal of a portion of the paver walkway, which encroaches into the required setback.**

- The table below outlines the improvements requiring zoning relief with the existing and required setbacks.

Required Relief	Existing Setback	Required Setback
Deck expansion (pergola)	6 feet (7 feet)	10 feet
Above-ground pool	15 feet	25 feet
Brick paver walkway (on the east side of the concrete patio)	1.4 feet	2 feet
Driveway expansion	1.7 feet	2 feet
Pergola	20 feet	25 feet

- As a result of these improvements, not including the portions of the deck and paver walkway, which the Petitioner intends to remove, the lot coverage is calculated at 48%, exceeding the maximum permitted 45%. The existing building coverage is approximately 28% and meets Code.
- Per the Zoning Ordinance, the maximum aggregate floor area of all permitted accessory structures is 10%. The aggregate floor area includes the deck expansion, above-ground pool, and pergola and total 22% (685 square feet).

ALTERNATIVES:

- Approve the Variations for lot coverage and setback relief to permit an above-ground pool, pergola, concrete patio and walkway, and driveway expansion
- Do not approve the Variations for lot coverage and setback relief to permit an above-ground pool, pergola, concrete patio and walkway, and driveway expansion

RECOMMENDATION:

Based upon the proposed site plan changes and withdrawn Variations, Staff recommends **action at the discretion** of the Council of the following variations:

- An above-ground pool to be set back 15 feet from the rear lot line, instead of the required 25 feet to permit;

- A pergola to be set back 20 feet from the rear lot line, instead of the required 25 feet;
- A pergola attached to the principle structure to be setback 7 feet from the side lot line, instead of the required 10 feet; and
- To permit the aggregate floor area of all permitted accessory structures to be 22%, instead of the maximum permitted 10%.
- To permit a driveway to be set back 1 foot from the side lot line, instead of the required 2 feet.
- To permit lot coverage to be 48% instead of the maximum permitted 45%; and

ACTION REQUIRED:

A motion to approve the identified variations for the property at 1360 E. Joan Drive.

ORDINANCE NO. _____

**AN ORDINANCE GRANTING VARIATIONS
AT 1360 E. JOAN DRIVE**

WHEREAS, pursuant to a petition and public hearing on June 11, 2019, of which public notice was given as required by law, the Zoning Board of Appeals of the Village of Palatine, in accordance with the Zoning Ordinance of the Village of Palatine, in such case made and provided, has held such public hearing and reported their findings relative to a request for a Variation to permit an above-ground pool to be set back 15 feet from the rear lot line, instead of the required 25 feet pursuant to Section 10.01 (d) (2) (u) of the Palatine Zoning Ordinance, a Variation to permit a pergola attached to the principle structure to be set back 20 feet from the rear lot line, instead of the required 25 feet pursuant to Section 10.01 (d) (2) (u) of the Palatine Zoning Ordinance, a Variation to permit the aggregate floor area of all permitted accessory structures to be 22 percent, instead of the maximum permitted 10 percent pursuant to Section 10.01 (d) (2) (u) of the Palatine Zoning Ordinance, and a Variation to permit a pergola attached to the principle structure to be setback 7 feet from the side lot line, instead of the required 10 feet pursuant to Section 10.01 (d) (2) (u) of the Palatine Zoning Ordinance; a Variation to permit a portion of the driveway to be set back 1 foot from the side property line, instead of the minimum required 2 feet, pursuant to Section 7.04 (i) (2) of the Palatine Zoning Ordinance; and, a Variation of permit the lot coverage to be 48%, instead of the maximum permitted 45% pursuant to Section 10.06 (g) of the Palatine Zoning Ordinance on the following

legally described property:

LOT 29 IN BLOCK 10 IN WINSTON PARK NORTHWEST UNIT 1, BEING A SUBDIVISION IN SECTION 13, TOWNSHIP 42 NORTH, RANGE 10 EAST OF THE THIRD PRINCIPAL MERIDIAN, ACCORDING TO THE PLAT THEREOF RECORDED JULY 30, 1957 AS DOCUMENT NUMBER 16972096, IN COOK COUNTY, ILLINOIS

Commonly known as 1360 E. Joan Drive (02-13-401-028-0000).

NOW, THEREFORE, BE IT ORDAINED, by the Mayor and Village Council of the Village of Palatine, Cook County, Illinois, acting in the exercise of their home rule power that:

SECTION 1: A Variation to permit an above-ground pool to be set back 15 feet from the rear lot line, instead of the required 25 feet pursuant to Section 10.01 (d) (2) (u) of the Palatine Zoning Ordinance; a Variation to permit a pergola attached to the principle structure to be set back 20 feet from the rear lot line, instead of the required 25 feet pursuant to Section 10.01 (d) (2) (u) of the Palatine Zoning Ordinance; a Variation to permit the aggregate floor area of all permitted accessory structures to be 22 percent, instead of the maximum permitted 10 percent pursuant to Section 10.01 (d) (2) (u) of the Palatine Zoning Ordinance; a Variation to permit a pergola attached to the principle structure to be setback 7 feet from the side lot line, instead of the required 10 feet pursuant to Section 10.01 (d) (2) (u) of the Palatine Zoning Ordinance; a Variation to permit a portion of the driveway to be set back 1 foot from the side property line, instead of the minimum required 2 feet, pursuant to Section 7.04 (i) (2) of the Palatine Zoning Ordinance; and, a Variation of permit the lot coverage to be 48%, instead of the maximum permitted 45% pursuant to Section 10.06 (g) of the Palatine Zoning Ordinance, subject to the following conditions:

1. The Variations shall substantially conform to the site plan prepared by the Petitioner, Michael Colby, dated 07/23/2019, except as such plans may be changed to conform to Village Codes and Ordinances.
2. The Petitioner shall submit any other outstanding building permit information (include all required plans, revisions, and response), including the driveway revisions to the Village, within the next 30 days.
3. The Petitioner shall execute a hold harmless letter in a manner acceptable to the Village Attorney, in order to provide the necessary Village access to the rear yard utility easement.

SECTION 2: That a copy of the public notice is attached hereto and form a part of this ordinance.

SECTION 3: That this ordinance shall be in full force and effect from and after its passage and approval as provided by law.

Attachment: Site Plan - non-conforming areas and associated square foot

Katie Rivard

From: Michael Colby [REDACTED]
Sent: Tuesday, April 16, 2019 1:25 PM
To: Katie Rivard

To Whom It may Concern,

I have submitted permits for the deck, pool, pavers bricks, concrete patios and the pergola. I was also asked to submit the square footage of my driveway and front walkway. The above additions were made to add to the creature comforts of the backyard as we plan on staying in our home.

The above additions put the coverage of our property at 45% coverage that put us over the maximum of 42% for our location.

A permit was submitted for the replacement of the drive. The village approved the initial design and completed work. Katie Rivard noted there was an addition added to the northeast corner of the driveway without a permit for the addition. This area was an additional 42 square feet.

I was asked to provide the square footage of the front walkway. The total square footage was measured out to be approximately 86 sq. ft. This is an approximation as the square footage increases as one gets closer to the front entrance. A permit was submitted for and reviewed upon completion of the patio paver replacement walkway. The drawings of the original concrete sidewalk and the paver bricks appear to be identical. It should be noted that the paver bricks are not cemented together and allow for the absorption of water.

I had the paver bricks added to the patio in the backyard at the same time and assumed the permit covered that work. The concrete patio was added a few years before. I did not submit a permit as it was a small addition 225 sq ft. with all the work completed per code.

The pergola was added above the patio without taking up any additional space.

A permit was applied for the original deck and pool. I was told there was no permit for the pool, however the permit for the deck shows the pool at the end of deck. The inspector for the project told us we needed a door alarm and a gate for the stairs. Last year we replaced the original pool with a replacement. The owner of Great Escape Patio and Pool told us because we were replacing the pool we did not need a permit.

An additional four feet has been framed out off the deck. Our neighbor said she was not concerned we added the extra square footage. The extra decking did not extend past the area of where the stairs extend to her property from the original deck.

I would appreciate your consideration to allow for the additional variance to our property.

Thank-you for your time and patience.

Mike and Marie Colby
 1360 East Joan Drive

III. PUBLIC HEARING

1. 1360 E. Joan Drive

Notice was published in the Daily Herald on May 27, 2019 and mailed to the owners of the surrounding properties.

Petitioner's Exhibits:

1. Application for Variation
2. Proof of Ownership
3. Site Plan
4. Pictures Submitted by Petitioner
5. Narrative from Petitioner 4-16-19
6. Public Notice

Sworn in staff: Ms. Katie Rivard

Sworn in the petitioner: Mr. Michael Colby 1360 E. Joan Drive

Mr. Colby referred to the site plan slide to show the requested relief. He explained the work done was not done to increase the property value but rather just for personal enjoyment. He explained some of the work was done in negligence without permits but some such as the driveway had permits.

Mr. Pirog clarified the driveway permit was to replace but they added a foot closer

Mr. Colby explained the driveway was there when they bought the house and replaced due to it being in disrepair. He stated the Village inspected the permitted work and approved the work 15 years ago. He pointed out the deck was already there and was permitted so didn't realize he was required to get a permit to add 4 feet on to it. Mr. Colby stated the pool was on the plans when he pulled the deck permit. He stated the inspectors who inspected the deck stated the pool location was fine as well as in November 2018 the pool location was inspected and approved. Mr. Colby explained the pool was replaced under warranty through Great Escape who told him that since the pool is a replacement it did not require a permit.

Ms. Roth-Wurster clarified Great Escape stated a permit was not needed.

Mr. Colby stated they indicated since it was a replacement a permit was not needed.

Ms. Wood asked when the home was purchased.

Mr. Colby stated 1989.

Discussion on years of improvements and the order they were done.

Mr. Luszczyk asked if there was a permit when the pool was installed.

Mr. Colby explained the deck and pool were done at the same time. He stated

when he got the permit for the deck the plat showed the existing pool which was approved by the Village in 2003.

Ms. Rivard gave a brief summary of request indicating the timeline of the work that was done. She explained staff was made aware of the work without a permit approximately a year ago when the proposed deck expansion came in. She stated she has a copy of the deck permit that was issued but did not see a pool permit.

Mr. Colby pointed out the plat shows the pool at the end of the deck.

Ms. Rivard explained the above ground pool is setback 15 feet from rear lot line and 25 feet is required, the deck is setback 6 feet from side lot line 10 feet is required, concrete patio and walkway meet setbacks but since it is included in lot coverage which is over by approximately 4%. She stated the pergola is unpermitted and does not meet the setbacks. Ms. Rivard spoke to the driveway permit and referred to site plan slide to show unpermitted addition to driveway. She further explained the permit explicitly stated the driveway had to maintain a 2-foot setback.

Mr. Colby stated the Village approved his permit.

Discussion on the 3 foot by 6 foot section.

Ms. Rivard stated the brick paver walkway does not meet the setbacks. She stated the lot coverage is at 49% with the max being 45%. She stated there is a 10% maximum of aggregated floor area which includes the deck, pool and the pergola.

Ms. Wood explained to Mr. Colby the board will review the request and look to see if they meet the standards for variation.

Ms. Wood asked staff about the aggravated floor area.

Ms. Rivard explained it is not normal to see a property that exceeds the 10%.

Mr. Colby asked what aggregate floor area is.

Ms. Rivard explained it includes any structures that are permanently attached to the principal structure over 16 inches above grade. She further explained it can be no more than 10% of the required rear yard. She referred to the site plan slide to explain the required rear yard calculations.

Sworn in petitioner Ms. Marie Colby

Ms. Wood asked how long the structures have been there.

Mr. Colby explained the deck and the pool were in 2003, the driveway was replaced in the early 90's, the pergola was done 1 year ago and the paver bricks were in the early 90's.

Ms. Wood clarified driveway was done with contractor and paved more.

Ms. Colby they cut the area out and added but when the Village inspected they approved that area as well.

Mr. Colby explained when he replaced driveway with a permit he was asked if he

wanted to remove the tree and add pavement to the area. He stated he didn't know he had to change the permit to include the additional square area.

Ms. Wood asked if the Village was aware there was additional area being paved. Mr. Colby stated no because he didn't get permit for extension but pointed out the Village inspected the area along with the permitted driveway both before and after the asphalt went in.

Ms. Rivard explained the permit didn't include the additional area and it specifically stated the driveway had to be set back 2 feet.

Mr. Colby pointed out the additional square feet did not expand the width of the driveway.

Ms. Rivard stated the area was not part of permit so the approval was for everything besides that area. She stated she cannot speak to what the inspector approved when he went out there.

Ms. Colby stated it was done at the same time as the driveway.

Mr. Dittrich asked if the driveway area was moved 2 feet they would be fine.

Ms. Rivard explained they are allowed to replace existing but the area in question was new not existing.

Mr. Dittrich asked if the concrete patio is within code.

Ms. Rivard answered yes with the exception that it contributes to the overall lot coverage and was one of the items that was done without a permit.

Ms. Wood asked if there was a reason why the pool was setback 15 feet instead of 25 feet.

Mr. Colby explained it was put on the back of the deck and when the inspector came out he didn't say it had to be 25 feet.

Ms. Wood clarified there was a permit for the deck not the pool.

Ms. Rivard stated she didn't see a permit for the pool.

Mr. Dittrich asked if the setback was 25 feet in 2003.

Ms. Colby stated the pool has not moved since 2003.

Ms. Rivard explained the setbacks for permitted obstructions came into place after 2003 exact date is unknown. She stated the pool was removed and replaced.

Mr. Dittrich asked if a permit is required to replace an existing pool.

Ms. Rivard stated she is unsure but would assume so due to the electrical requirements. She explained if they replaced with the same size in the same location it would be allowed but they can't confirm what was previously there.

Mr. Colby stated it is the same size and has not changed the location.

Ms. Wood asked when the pool was changed.

Mr. Colby stated it was last year.

Ms. Colby explained the pool got a hole and was replaced under the warranty.

Mr. Colby stated in 2018 they had an inspection for the location of the pool and it was approved.

Ms. Wood asked staff about pool inspection.

Mr. Colby stated the Village told them to have the inspection done.

Ms. Rivard pointed out there is so much work that has been done and staff has tried to do as much research to work out what has been approved and what has not. She stated the pool is only 1 of 8 variations, and Staff is taking a neutral position on the pool. She explained it is not uncommon in this neighborhood to need a variation for decks and additions given the lot size.

Ms. Wood spoke to the deck setback and asked if originally built in 2003.

Mr. Colby answered yes.

Ms. Wood asked if it has changed since 2003.

Mr. Colby explained the deck is the reason this all started. He put a 4-foot extension, which he believed was okay because he only came as far out as the stairs.

Ms. Wood asked when the pergola was put up.

Mr. Colby stated approximately 2 years ago. He pointed out it wasn't taking up any additional coverage explaining it is not covered just open boards so it is more for aesthetics instead of permanent structure.

Mr. Dittrich asked about the stair location on the deck.

Mr. Colby referred to the site plan slide and explained since there are stairs on the other side of the deck he thought he could remove the stairs and extend the deck into that area.

Mr. Dittrich asked if stairs are counted in square footage

Ms. Rivard answered they are not typically counted in lot coverage.

Ms. Wood asked about flooding concerns in the area and other properties in area regarding lot lines and property coverage.

Ms. Rivard stated staff is unaware of any flooding concerns. She referred to the aerial slide to show other properties in area that received relief with the most common being setback relief for additions and decks.

Ms. Wood clarified there are a lot of setbacks but not as much lot coverage.

Ms. Rivard explained a lot of the lots in this area are smaller with most being substandard to today's R-2 standards so it is not uncommon to come across these issues.

Mr. Dittrich asked Mr. Colby if they have spoken to neighbors.

Ms. Colby stated everyone is supportive and would sign off if the Village needed signatures for acceptance.

Mr. Colby pointed out the zoning sign has been out for over a month instead of the normal 2 weeks and no one has complained.

Ms. Rivard stated they have had one inquiry but no complaints.

Ms. Wood asked if the pool variation is due to safety, aesthetics or just to give room between neighbors and properties.

Ms. Rivard stated more for giving room pointing out additions have a greater setback at 40 feet. She explained pools and decks are permitted to be set back 25 feet, and it is not common to see relief for these items due to these lots being smaller.

Ms. Wood referred to the aerial asking if 1357 E. Michelle Drive received relief for their addition.

Ms. Rivard stated she did not come across any zoning relief granted for that property.

Ms. Colby pointed out their backyard is in between two houses. She spoke to the addition on the home behind being built years ago.

Mr. Colby referred to slide pointing out neighbors who have addition.

Ms. Colby pointed out there are a lot of additions in the neighborhood. She repeated they didn't do theirs for property value and plan on not leaving the area anytime soon.

Ms. Rivard stated the setback requirements have changed since 2006 so there may have been different circumstances for the addition, which is why you don't see more requests for zoning relief in the neighborhood.

Ms. Wood asked petitioners about flooding.

Mr. Colby stated even with the extensive rain this spring there has been no running water off theirs or the neighbor's lot. He stated the paver bricks were installed because they absorb water.

Ms. Wood asked when the brick paver walkway was put in.

Mr. Colby answered 1990.

Ms. Wood asked why they were installed.

Mr. Colby explained it bordered the concrete patio and is for aesthetics and to give a little additional room.

Ms. Wood asked for location of pavers that don't meet setback.

Ms. Rivard referred to site plan to show location.

Ms. Wood asked if the bricks were removable if needed to come into compliance.

Mr. Colby answered yes.

Ms. Wood asked if the driveway was concrete.

Mr. Colby answered no asphalt.

Mr. Dittrich asked what lot coverage would be if the brick pavers were removed

Ms. Rivard stated she can't calculate without knowing how much would be

removed.

Discussion on how much needs to be removed.

Ms. Rivard went through the slides to show existing conditions.

STAFF RECOMMENDATION:

Deck Expansion, Above-Ground Pool, & Pergola

Per the Zoning Ordinance, decks more than 16 inches above grade, or any structures permanently attached to the principle building, shall be setback a minimum 25 feet from the rear lot line and shall not encroach into the required side yard setback.

The deck expansion is currently set back 6 feet from the side property line instead of the minimum required 10 feet. Thus, a Variation of 4 feet is required. The above-ground pool is set back 15 feet from the rear lot line, instead of the minimum required 25 feet. And, a Variation of 10 feet is required. Lastly, the pergola is set back 20 feet from the rear lot line and 7 feet from the side property line, and requires a Variation of 5 feet and 3 feet, respectively.

Staff has reviewed the surrounding properties and identified several approved petitions for setback reductions to allow building additions and decks in the required rear and side yards. The most significant rear yard setback reduction was 30 feet to allow a sunroom addition to be set back 10 feet from the rear lot line. The most significant side yard setback reduction was 4 feet to allow an addition to be set back 6 feet from the side lot line. While Staff is not aware of a circumstance where zoning relief has been granted for a pergola to encroach in the required side or rear yards, the pergola is open-style and does not extend past the existing addition.

Ultimately, Staff recommends Action at the discretion of the Zoning Board of Appeals for these Variations:

- Variation to permit a deck to be set back 6 feet from the side lot line instead of the required 10 feet
- Variation to permit an above-ground pool to be set back 15 feet from the rear lot line instead of the required 25 feet
- Variation to permit a pergola to be set back 20 feet from the rear lot line instead of the required 25 feet
- Variation to permit a pergola attached to the principle structure to be setback 7 feet from the side lot line instead of the required 10 feet pursuant to Section 10.01 (d) (2) (u) of the Palatine Zoning Ordinance.
- Variation to permit lot coverage to be 49 percent instead of the maximum permitted 45 percent
- Variation to permit the aggregate floor area of all permitted structures to be 22 percent instead of the maximum permitted 10 percent

Brick Paver Walkway and Driveway Expansion

The brick paver walkway and driveway expansion is setback approximately 1.4 feet and 1.7 feet, respectively, from the side property line instead of the minimum required 2 feet. When the Petitioner received permit approval in 2005 to remove and replace the driveway, the approved site plan explicitly stated the driveway shall be setback a minimum 2 feet. As previously mentioned, there have been

several surrounding properties that have received Special Uses and Variations for setback relief. However, with the exception of one petition, it is more typical that the 2-foot setback is maintained, excepting an approved Variation or existing legal non-conformity. Additionally, the removal of the walkway and driveway will help bring the subject property closer to compliance for lot coverage. With that being said, Staff recommends a portion of the walkway and driveway are removed to meet the 2-foot setback to remain consistent with the surrounding properties.

Therefore, Staff recommends denial of the following Variations:

- Variation to permit a brick paver walkway to be set back 1 foot from the side lot line instead of the required 2 feet
- Variation to permit a driveway to be set back 1 foot from the side lot line instead of the required 2 feet.

If the Zoning Board of Appeals recommends approval of the above Variations, Staff recommends the following conditions:

1. The Variations shall substantially conform to the site plan prepared by the Petitioner, Michael Colby, dated 07/23/2019, except as such plans may be changed to conform to Village codes and Ordinances.
2. The Petitioner shall submit all of the necessary building permit information (include all required plans, revisions, and response), including the driveway revisions to the Village, within the next 30 days.

Mr. Pirog asked if the pergola is included in the 22%

Ms. Rivard answered yes explaining it includes all structures that are permanently attached to the principle structure including the deck, pergola and the pool.

Ms. Wood asked how much of the 22% is contributed by the pergola.

Mr. Dittrich asked if the pergola covers the entire patio.

Mr. Colby answered yes it is approximately 16 feet x 15 feet.

Mr. Dittrich asked if removing pergola changes the lot coverage.

Ms. Rivard answered no because the patio is already covered under that.

Discussion on lot coverage and the difference of aggregate floor area.

There were no further questions. The public hearing was closed.

Discussion on how to combine the variations.

Mr. Dittrich made a motion to approve the following subject to Staff's conditions; seconded by Ms. Wood.

- **Variation to permit an above-ground pool to be set back 15 feet from the rear lot line instead of the required 25 feet**
- **Variation to permit a pergola to be set back 20 feet from the rear lot line instead of the required 25 feet**
- **Variation to permit a pergola attached to the principle structure to be setback 7 feet from the side lot line instead of the required 10 feet pursuant to Section 10.01 (d) (2) (u) of the Palatine Zoning Ordinance.**

- Variation to permit lot coverage to be 49 percent instead of the maximum permitted 45 percent
- Variation to permit the aggregate floor area of all permitted structures to be 22 percent instead of the maximum permitted 10 percent

DELIBERATIONS:

Mr. Dittrich stated the setback was changed after the pool was put in which makes it unique. He pointed out the pergola covers the concrete patio, which is in line with Village ordinance so anything related to it should be okay. He stated if the pergola is not a concern the aggravated floor area drops from 22% to 14% which is easier to swallow.

Discussion on lot coverage.

Ms. Wood agreed with Mr. Dittrich. She stated lot coverage is the most concerning and is unsure if the pavers, driveway and deck were removed if the lot coverage would go down enough.

Mr. Pirog pointed out it is only 4% over but is disproportionate to the backyard compared to the neighbor's properties so it alters the essential character of the locality.

Ms. Roth-Wurster spoke to the standards and expressed concern with lot coverage. She stated she doesn't see unique circumstance and feels it may alter the essential character of the locality because there is so much going on.

Ms. Wood stated aside from lot coverage she thinks it meets unique circumstance.

Motion failed by a vote of 1-4.

AYES: Dittrich

NAYS: Roth-Wurster, Wood, Luszczak, Pirog

Mr. Dittrich made another motion to approve the following, subject to Staff's conditions; seconded by Ms. Roth-Wurster:

- Variation to permit an above-ground pool to be set back 15 feet from the rear lot line instead of the required 25 feet
- Variation to permit a pergola to be set back 20 feet from the rear lot line instead of the required 25 feet
- Variation to permit a pergola attached to the principle structure to be setback 7 feet from the side lot line instead of the required 10 feet pursuant to Section 10.01 (d) (2) (u) of the Palatine Zoning Ordinance.
- Variation to permit the aggregate floor area of all permitted structures to be 22 percent instead of the maximum permitted 10 percent

Mr. Pirog pointed out if those variations are approved the lot coverage is over. Discussion on lot coverage and how each item affects it.

Ms. Rivard stated maybe it would be easier to take each variation individually.

Mr. Dittrich withdrew his motion.

- Mr. Dittrich made a motion to approve the Variation to permit a deck to be set back 6 feet from the side lot line instead of the required 10 feet subject staff's conditions; seconded by Ms. Wood.
Motion failed by a vote of 4-1.
AYES: Wood
NAYS: Roth-Wurster, Luszczak, Dittrich, Pirog
- Mr. Dittrich made a motion to approve the variation to permit an above-ground pool to be set back 15 feet from the rear lot line instead of the required 25 feet subject staff's conditions; seconded by Mr. Luszczak.
Motion was approved by a unanimous vote of 5-0.
AYES: Roth-Wurster, Wood, Luszczak, Dittrich, Pirog
- Mr. Dittrich made a motion to approve the variation to permit a pergola to be set back 20 feet from the rear lot line instead of the required 25 feet subject staff's conditions; seconded by Mr. Luszczak.
Motion was approved by a unanimous vote of 5-0.
AYES: Roth-Wurster, Wood, Luszczak, Dittrich, Pirog
- Mr. Dittrich made a motion to approve the variation to permit the aggregate floor area of all permitted structures to be 22 percent instead of the maximum permitted 10 percent subject staff's conditions; seconded by Ms. Roth-Wurster.
Motion was approved by a vote of 4-1.
AYES: Roth-Wurster, Wood, Luszczak, Dittrich
NAYS: Pirog
- Mr. Pirog made a motion to deny the variation to permit a brick paver walkway to be set back 1 foot from the side lot line instead of the required 2 feet subject staff's conditions; seconded by Mr. Luszczak.
Motion of denial was approved by a vote of 4-1.
AYES: Roth-Wurster, Wood, Luszczak, Pirog
NAYS: Dittrich

DELIBERATIONS:

Mr. Pirog pointed out they are easily removed and according to staff no one else in the area has so should not be approved.

Mr. Dittrich pointed out it is a matter of inches on setback and then just falls into lot coverage.

Ms. Roth-Wurster spoke to setback and the reasons they are needed.

Ms. Wood pointed out there is a lot going on and depending on the length of the pavers removed it can help reduce the lot coverage which is ultimately what the goal is.

- **Mr. Dittrich made a motion to approve the variation to permit a driveway to be set back 1 foot from the side lot line instead of the required 2 feet. subject staff's conditions; seconded by Ms. Wood.**

Motion was approved by a vote of 4-1.

AYES: Roth-Wurster, Wood, Luszczak, Dittrich

NAYS: Pirog

DELIBERATIONS:

Mr. Dittrich pointed out it is even less inches than the brick pavers and he voted to approve them.

Ms. Wood stated it is such a small amount of relief that had they requested the relief on its own the board may have approved it. She spoke to the standards.

Mr. Pirog pointed out there was only one petition that doesn't meet the standards in the area

Mr. Luszczak pointed out it is only 5 inches and asphalt is harder to take out.

- **Mr. Luszczak made a motion to deny the variation to permit lot coverage to be 49 percent instead of the maximum permitted 45 percent subject staff's conditions; seconded by Mr. Pirog.**

Motion of denial was approved by a vote of 4-1.

AYES: Roth-Wurster, Wood, Luszczak, Pirog

NAYS: Dittrich

DELIBERATIONS:

Mr. Luszczak stated most of the board is sticklers for lot coverage.

Ms. Woof stated lot coverage is a big issue and in this case she is not sure if the standards have been met.

- **Ms. Roth-Wurster made a motion to approve the variation to permit a pergola attached to the principle structure to be setback 7 feet from the side lot line instead of the required 10 feet pursuant to Section 10.01 (d) (2) (u) of the Palatine Zoning Ordinance subject staff's conditions; seconded by Mr. Dittrich.**

Motion was approved by a unanimous vote of 5-0.

AYES: Roth-Wurster, Wood, Luszczak, Dittrich, Pirog

DELIBERATIONS:

Ms. Roth-Wurster stated the impact is minimal and doesn't really alter the character of the neighborhood.

Mr. Dittrich pointed out of all the accessory structures this takes up the least space.

- Mr. Pirog made a motion to deny the variation to permit a deck to be set back 6 feet from the side lot line instead of the required 10 feet subject staff's conditions; seconded by Mr. Luszczak.

Motion of denial was approved by a unanimous vote of 5-0.

AYES: Roth-Wurster, Wood, Luszczak, Dittrich, Pirog

Ms. Wood stated this item will go to Village Council on July 15, 2019.

VARIATION

Required Materials

- Before*
- After*
- ☐ Filing Fee of \$ _____
 - ☐ Application Form
 - ☐ Plat of Survey (must show all current improvements and be sealed by an Illinois certified surveyor)
 - ☐ Site Plan & Floor plan (dimension, location, and setbacks of all existing and proposed buildings) – **one 11x17 copy each, electronic version preferred**
 - ☐ Real Estate Interest Disclosure Form (see attached)
 - ☐ Proof of Ownership or Lease (e.g. Title Insurance Policy, Deed, or Purchase Contract)

Additional Materials (as required by the Village)

- ☐ Elevation Plan (front, side, and rear elevations of a proposed building), and/or Floor Plan (proposed interior layout) – **one 11x17 copy of each plan, electronic versions preferred**
- ☐ Engineering Plans (must indicate existing conditions, topography, storm water management, tree preservation, utility connections, detention calculations, and a cost estimate)
- ☐ Photographs (e.g. ground-level or aerials)
- ☐ Other materials as deemed necessary by the Village

Petitioner Justification

The Petitioner is required to present specific evidence related to each of the following standards to justify the request (paraphrased from Section 14.03 of the Palatine Zoning Ordinance). Answer the items below and attach a separate sheet if necessary. ***If you are applying for a Special Use only, you do not need to answer these items.***

1. That the property cannot yield a reasonable return if used only under the conditions allowed by the regulations governing the zoning district in which it is located

N/A

2. That the plight of the owner is due to unique circumstances

N/A

3. That the variation, if granted, will not alter the essential character of the locality

The VARIATION IF GRANTED WILL NOT ALTER THE ESSENTIAL CHARACTER OF

4. In order to supplement the above standards, the Zoning Board of Appeals may also consider the following:

- a. The particular surroundings, shape, or topographical conditions of the property
- b. A unique hardship for the property not generally applicable to other properties in the same zoning district
- c. The request is not based on a desire to make more money out of the property
- d. The petitioner has not created the alleged hardship for the property
- e. The request will not be detrimental to the public welfare or other properties in the neighborhood
- f. The request will not impair the supply of light and air to adjacent properties, substantially increase the danger of fire, endanger the public safety, or substantially diminish or impair neighboring property values

LOCALITY

PUBLIC NOTICE

A public hearing will be held before the Palatine Zoning Board of Appeals on Tuesday, June 11, 2019 at 7:00 PM, in the Village Council Chambers in the Palatine Village Hall, 200 E. Wood Street, relative to a request for the following:

1. Variation to permit a deck to be set back 6 feet from the side lot line instead of the required 10 feet pursuant to Section 10.01 (d) (2) (u) of the Palatine Zoning Ordinance.
 2. Variation to permit an above-ground pool to be set back 15 feet from the rear lot line instead of the required 25 feet pursuant to Section 10.01 (d) (2) (u) of the Palatine Zoning Ordinance.
 3. Variation to permit a pergola attached to the principle structure to be set back 20 feet from the rear lot line instead of the required 25 feet pursuant to Section 10.01 (d) (2) (u) of the Palatine Zoning Ordinance.
 4. Variation to permit the aggregate floor area of all permitted structures to be 22 percent instead of the maximum permitted 10 percent pursuant to Section 10.01 (d) (2) (u) of the Palatine Zoning Ordinance.
 5. Variation to permit a brick paver walkway to be set back 1 foot from the side lot line instead of the required 2 feet pursuant to Section 10.01 (d) (3) (b) of the Palatine Zoning Ordinance.
 6. Variation to permit a driveway to be set back 1 foot from the side lot line instead of the required 2 feet pursuant to Section 7.04 (1) (2) of the Palatine Zoning Ordinance.
 7. Variation to permit lot coverage to be 49 percent instead of the maximum permitted 45 percent pursuant to Section 10.06 (g) (1) (b) of the Palatine Zoning Ordinance.
 8. Variation to permit a pergola attached to the principle structure to be set back 7 feet from the side lot line instead of the required 10 feet pursuant to Section 10.01 (d) (2) (u) of the Palatine Zoning Ordinance.
- The property is commonly known as 1360 E. Joan Drive (02-13-404-028). The Petitioner is requesting lot coverage and setback relief for an existing deck expansion, above-ground pool, pergola attached to the principle structure, concrete patio, driveway expansion and brick paver walkways. This petition was originally scheduled for the May 28th Zoning Board of Appeals hearing, but it has been continued to the June 11th Zoning Board of Appeals hearing due to revisions to the items listed above.
- The above petition has been filed by Michael Colby and is available for examination in the office of the Village Clerk, 200 E. Wood Street.

Attachment: Public Notice (2019-72 : 1360 E. Joan Drive - Multiple Variations for Existing Improvements)

Consider a Motion Authorizing the Village Manager to Approve the Purchase of an Asphalt Roller

BACKGROUND:

As part of the 2019 Capital Equipment Replacement Budget, the Village Council has appropriated \$55,620 in funds for the replacement of a 1999 Ingersoll Rand asphalt roller (T-268). The roller is recommended for replacement after an inspection, evaluation, and life-cycle cost analysis. As part of the vehicle replacement schedule, this roller will be sent to auction when decommissioned.

This existing roller is the largest width drum and heaviest in the fleet. It is used primarily for street paving. It has a 52" wide drum and an 8,000 pound working weight. The Village also has a smaller 47" wide roller with 6,000 pound working weight, and a 35" wide roller with 3,400 pound working weight. Due to its larger size, it is more efficient and requires less compaction passes than the smaller rollers, which are used primarily for small tasks such as spot patching and driveway apron paving.

KEY ISSUES:

- Staff reviewed and had demonstrations from three roller manufacturers (Bomag, Caterpillar, and DynaPac) last year when replacing the 47" wide roller. Based on a demonstration during an actual paving operation, local availability of parts and service and company history, a Caterpillar model was chosen. This proposed replacement will be very similar to the three models Staff evaluated last year.
- Since it is essentially a larger version of the roller purchased last year, a Caterpillar model is once again recommended. Staff requested pricing from Altorfer Caterpillar as the local dealer for this area. There is a current Sourcewell (formerly NJPA) joint-purchase contract for the CB36B roller. The contract pricing for a new 2019 CB36B machine through Altorfer Cat is \$59,886.
- Altorfer related that they have a demo machine identical to the brand new machine they quoted. It only has 12 hours on it and is for sale at \$57,854, which amounts to a savings of \$2,032. Staff feels that 12 hours represents very little usage, and the machine will still come with a complete one year / unlimited hours full warranty. Therefore, Staff recommends purchasing the demo machine.

ALTERNATIVES:

1. Authorize the Village Manager to approve the purchase of one 2019 Caterpillar CB36B asphalt roller through the Sourcewell Contract.
2. Refer back to Staff with comments.

RECOMMENDATION:

Staff recommends authorizing the Village Manager to approve the purchase of one 2019 Caterpillar CB36B asphalt roller with 12 hours on it through the Sourcewell Contract #032119 from Altorfer Caterpillar of Elmhurst, Illinois in the amount of \$57,854.

BUDGET IMPACT:

Funds in the amount of \$55,620 have been appropriated in the 2019 Capital Equipment

Replacement Budget to accommodate this purchase. \$5,150 from a trailer purchase that was deferred this year can cover the \$2,234 shortfall.

ACTION REQUIRED:

Motion to authorize the Village Manager to approve the purchase of one 2019 Caterpillar CB36B asphalt roller with 12 hours on it through the Sourcewell Contract #032119 from Altorfer Caterpillar of Elmhurst, Illinois in the amount of \$57,854.

MEMORANDUM

To: Matt Barry, Director of Public Works

From: Matt Dusckett, Fleet Services Coordinator
Jim McCullar, Superintendent

Date: September 4, 2019

Subject: Replacement of Asphalt Roller

Issue: As part of the capital equipment replacement budget for CY 2019, the Village Council has appropriated \$55,620 in funds for the replacement of T-268 (a 1999 Ingersoll Rand asphalt roller). The roller is recommended for replacement after an inspection, evaluation, and life-cycle cost analysis. As part of the vehicle replacement schedule, this roller will be sent to auction when decommissioned.

This existing roller is the largest width drum and heaviest in the fleet. It is used primarily for street paving. It has a 52" wide drum, and an 8,000 lb. working weight. The village also has a smaller 47" wide roller with 6,000 lb. working weight, and a smaller 35" wide roller with 3,400 lb. working weight. Due to its larger size, it is more efficient and requires less compaction passes than the smaller rollers which are used primarily for smaller tasks such as spot patching and driveway apron paving.

Analysis: Staff reviewed and had demonstrations from three different roller manufacturers (Bomag, Caterpillar, and DynaPac) last year when replacing the 47" wide roller. Based on a demonstration during an actual paving operation, local availability of parts and service and company history, a Caterpillar model was chosen. This proposed replacement will be very similar to the three models staff evaluated last year.

Since it is essentially be a larger version of the roller purchased last year, a Caterpillar model is once again recommended. Staff requested pricing from Altorfer Caterpillar as the local dealer for this area. There is a current Sourcewell (formerly NJPA) joint-purchase contract for the CB36B roller. The contract pricing for a new 2019 CB36B machine through Altorfer Cat is \$59,886.

Altorfer related that they have a demo machine that is identical to the brand new machine they quoted. It only has 12 hours on it and is for sale at \$57,854. That amounts to a savings of \$2,032. Staff feels that 12 hours represents very little usage, and the machine will still come with a complete one-year / unlimited hours full warranty. Therefore, staff recommends purchasing the demo machine.

Budgeted funds are \$55,620, which leaves a shortfall of \$2,234. There is a balance of \$5,150 in the 2019 capital equipment replacement fund for a trailer replacement that has been deferred. Staff recommends those funds be utilized to offset the shortfall on this purchase.

Recommendation: Staff recommends that the Village Council approve the purchase of a 2019 Caterpillar CB36B asphalt roller with 12 hours on it through the Sourcewell Contract # 032119 from Altorfer Caterpillar, 635 W. Lake Street, Elmhurst, IL 60126, in the total amount of \$57,854.

I have attached a copy of the Capital Budget "Project VE 0004" page, and the Altorfer Cat Sourcewell quotation.

Consider a Motion Authorizing the Village Manager to Approve the Purchase of a Heavy Duty In-Ground Truck Lift

BACKGROUND:

As part of the Capital Equipment Replacement Budget for 2020, Staff has requested \$140,000 in funds for the replacement of a heavy duty in-ground truck lift (E-156) in the fleet services shop. This lift is used to raise large dump trucks, fire trucks, and heavy equipment to perform repairs. The existing lift has become increasingly unreliable and has reached the end of its service life. It did not pass its annual certification recently due to safety locks not working properly and leakage from the hydraulic cylinders. The lift was originally installed when the Combined Service Facility was built in 1990.

KEY ISSUES:

- Staff had proposed replacement of this lift in the 2020 Capital Budget, but due to the current condition and failure to pass a certification inspection recently, Staff recommends replacing this lift in 2019.
- The current lift is manufactured by Rotary Lift of Madison, Indiana, which has been manufacturing lifts since 1925 and are well known in the industry.
- Typically an in-ground lift replacement requires complete concrete removal and excavation of the bay floor, and forming and pouring new concrete for the lift assembly. Rotary Lift offers an innovative way to replace an underground lift such as this by utilizing the existing concrete structure.
- It begins by inspecting the existing concrete structure to determine if it is a good candidate for this retrofit. The existing lift structure in fleet services has been inspected and it has been determined to be an excellent candidate for this retrofit. Rotary Lift is the only manufacturer offering this procedure. It is estimated to save up to 50% of the cost for a lift replacement.
- Rotary Lift has a joint-purchase contract through Sourcewell, of which the Village is a member. Staff requested a Sourcewell quote for a Rotary retrofit underground lift. The total cost is \$129,511.68, which includes the new equipment and the labor to remove the existing lift and install the new lift. The new lift would be expected to last at least 30 years.

ALTERNATIVES:

1. Authorize the Village Manager to approve the purchase and installation of a Rotary retrofit lift through the Sourcewell Contract.
2. Refer back to Staff with comments.

RECOMMENDATION:

Staff recommends authorizing the Village Manager to approve the purchase and installation of a Rotary retrofit lift through Sourcewell Contract #061015-RRL from Rotary Lift of Madison, Indiana in the amount of \$129,512.

BUDGET IMPACT:

The use of fund balance is requested to accommodate this proposed purchase. This item has been part of our multi-year plan with the targeted expense originally planned for 2020. Authorizing the accelerated request at this time will result in a corresponding reduction in the capital equipment purchase request for 2020.

ACTION REQUIRED:

Motion to authorize the Village Manager to approve the purchase and installation of a Rotary retrofit lift through Sourcewell Contract #061015-RRL from Rotary Lift of Madison, Indiana in the amount of \$129,512.

MEMORANDUM

To: Matt Barry, Director of Public Works
From: Matt Dusckett, Fleet Services Coordinator
Date: August 27, 2019
Subject: Purchase of a Replacement Heavy Duty In-ground Truck Lift

Issue: As part of the Proposed Capital Equipment Replacement Budget for CY 2020, Staff has requested \$140,000.00 in funds for the replacement of a heavy duty in-ground truck lift (E-156) in the fleet services shop.

This lift is utilized to raise large dump trucks, fire trucks, and heavy equipment to perform repairs. The lift has become increasingly unreliable, and has reached the end of its service life. It did not pass its annual certification recently due to safety locks not working properly and leakage from the hydraulic cylinders. I have attached a copy of the inspection report, and have provided a few pictures of the current lift condition below. The lift was originally installed when the combined services building was built in 1990.

Controls are outdated and not up to modern safety regulations.

Front lift cylinder leaks and does not have the lift capacity of modern cylinders.

Attachment: Heavy Duty In-Ground Truck Lift Purchase Memo (Purchase an In-Ground Truck Lift)

Purchase of a Replacement Heavy Duty In-ground Truck Lift

August 27, 2019

Page 2

Rear lift cylinder does not descend entirely down to allow cover to close completely

Rear lift cylinder leaks and safety locks do not automatically apply.

The hydraulic pump and motor are 30-years old and are worn out.

Attachment: Heavy Duty In-Ground Truck Lift Purchase Memo (Purchase an In-Ground Truck Lift)

Purchase of a Replacement Heavy Duty In-ground Truck Lift**August 27, 2019****Page 3**

Analysis: Staff had proposed replacement of this lift in the 2020 capital budget, but due to the current condition and failure to pass a certification inspection recently, Staff recommends this lift be replaced in 2019.

The current lift is manufactured by Rotary Lift of Madison, Indiana. They have been manufacturing lifts since 1925 and are well known in the industry.

Typically an in ground lift replacement requires complete concrete removal and excavation of the bay floor, and forming and pouring new concrete for the lift assembly. Rotary Lift however, offers an innovative way to replace an underground lift such as this by utilizing the existing concrete structure.

It begins by inspecting the existing concrete structure to determine if it is a good candidate for this retrofit. The existing lift structure in fleet services has been inspected and it has been determined to be an excellent candidate for this retrofit. Rotary Lift is the only manufacturer offering this procedure. It is estimated to save up to 50% of the cost for a lift replacement. I have attached information on this retrofit installation.

Rotary Lift of Madison, In. has a joint-purchase contract through Sourcewell, which the village is a member of. Staff requested a Sourcewell quote for a Rotary retrofit underground lift (see attached Rotary Quote # 2019550).

Recommendation: Staff recommends that the Village Council approve the purchase and installation of a Rotary retrofit lift (Quote # 2019550) under Sourcewell Contract Number: 061015-RRL, from Rotary Lift, 2700 Lanier Dr. Madison, IN 47250, in the total amount of \$129,511.68.

If approved, the replacement request will be removed from the proposed 2020 capital budget.

This new lift would be expected to last at least 30 years. I have attached a copy of the Rotary Lift quote, a copy of the inspection findings, and an article detailing the benefits of a retrofit installation.

ADDITIONAL TERMS AND CONDITIONS: By submitting a purchase order to Vehicle Service Group, LLC. (VSG), customer accepts and agrees to these terms and conditions as additional terms to the existing agreement between the parties referenced on the face of this quotation (Existing Agreement), notwithstanding anything to the contrary contained therein. All additional or different terms and conditions contained in Customer's purchase order are hereby rejected. No additional or different terms or conditions, or any modifications, changes, or amendments to these terms of the existing agreement shall be binding on VSG, unless expressly accepted by VSG in writing.

DISCLAIMER: Notwithstanding anything to the contrary in the Existing Agreement, VSG shall not be liable for any loss, damage or additional costs arising from unforeseen conditions affecting installation, including but not limited to contaminated soil, bed rock, in-floor heating system, high water conditions, or any other type of in-ground conditions. Customer acknowledges and agrees that Customer shall be responsible for any additional costs due to such conditions, in addition to the installation price set forth herein.

DELAY: Notwithstanding anything to the contrary in the Existing Agreement, if delivery of the equipment or completion of the work

is delayed by more than thirty (30) days due to the acts or omission of Customer or any third party other than VSG or its sub-contractors, VSG may require Customer to render payment for equipment manufactured or delivered, and portions of the work completed, within thirty (30) days from the date of VSG's invoice, in the amounts set forth in such invoice.

<p>Rotary Lift offers three frame-only certified lift retrofit options for older heavy-duty inground lifts.</p>

RESOURCE CENTER > MAINTENANCE

Rotary Lift: New retrofit options for old heavy-duty inground lifts

Oct 07, 2016

For repair shops with heavy-duty inground lifts that are 20 to 40 years old , escalating maintenance costs and safety concerns can lead management to conclude that it's time for a

new lift. Rotary Lift announced it offers three retrofit options to install a new certified lift in the existing pit.

Rotary Lift's 70Q, MOD30 and MOD35 heavy-duty inground lifts are available as direct structural "frame only" replacements for all Rotary Lift standard inground lifts. "If an existing pit is still good, this strategy can save shops up to 50 percent of the cost of installing a new heavy-duty inground lift in a new pit," according to the company. "At the same time, installing one of the new ALI-certified lifts will bring the shop into compliance with ANSI safety standards and International Building Code (IBC) requirements."

Each hydraulic jack in a Rotary Lift heavy-duty frame-only retrofit inground lift has from 25,000 to 35,000 lbs. capacity. In most 20- to 40-year-old pits, each inground lift cylinder is rated at 18,000 lbs. Before the Rotary Lift retrofit options can be considered, the shop's existing pit must be evaluated by a structural engineer to ensure it is in good condition and to determine how much additional load it can support, the company explained.

"The cost of a new pit is a big part of the investment in a new inground lift," said Doug Spiller, Rotary Lift heavy-duty product manager. "We've found the majority of 20- to 40-year-old inground lift pits can safely handle additional lifting capacity. When that's the case, Rotary Lift provides viable and economical choices to upgrade to a higher-capacity, certified inground lift with minimal pit modification and cost."

Retrofit Option 1: 70Q, Rotary Lift's recently updated traditional inground lift is the most cost-effective retrofit option. According to the company, benefits include:

- Available with two to three posts for a lifting capacity of 50,000 to 75,000 pounds.
- Simple push button controls eliminate manual equalization of handles.
- Can be built in custom lengths from 13 feet to 24 feet in 1 foot increments, to fit the wheelbase needs of all shops.

Retrofit Option 2: MOD30 benefits include:

- Available with two or three cylinders for a lifting capacity from 60,000 to 90,000 pounds.

- Ergonomic upright control console features joystick controls and technology that lets technicians access service, diagnostic and maintenance information, including up to 10 memorized wheelbase settings.
- Energy-efficient electric drive assembly requires just a half horsepower motor for wheelbase adjustment.

Retrofit Option 3: MOD35 inground modular lift benefits include:

- Available with two or three multi-stage hydraulic cylinders to provide best-in-class lifting capacity of 70,000 to 105,000 lbs.
- Patent-pending pendant-only remote control lets technicians operate the lift from anywhere around the vehicle for more efficient spotting and lifting.
- Electric console can be located up to 100 feet away from the lift, providing technicians with additional work space around the vehicle.

Retrofitting a “frame only” MOD30 or MOD35 requires excavating additional space in the floor or pit for the power unit. Both of these premier heavy-duty lifts provide these additional benefits:

- VEC Equalization and Control System allows technicians to control jacks individually for vehicle spotting and simultaneously for lifting.
- Clear floor design: All housings are recessed to provide “zero clearance” drive-through when the lift is in the down position.
- Nitrided shutter plate trench covers that automatically move to keep the pit covered at all times.

Consider a Resolution Authorizing the Redemption of Outstanding General Obligation Bonds, Series 2011A of the Village of Palatine, Illinois

BACKGROUND:

The Village continually reviews its outstanding debt for opportunities to reduce the debt burden and cost of borrowing to its residents.

KEY ISSUES:

- Staff has identified available cash on hand to redeem \$3,000,000 outstanding General Obligation Bonds, Series 2011A on December 1, 2018.
- The redemption of these bonds will:
 - 1) Reduce outstanding debt by \$3,000,000; and
 - 2) Provide an interest savings of \$200,000.
- The 2011A redemption is taking advantage of cash on hand as approved at the annual financial review from: the CY 2018 General Fund Excess Reserves, \$100,000 of Economic Stabilization Reserve, and General Debt Service Fund Reserves.

RECOMMENDATION:

Staff recommends that these bonds be redeemed on December 1, 2019.

ACTION REQUIRED:

Motion to adopt a resolution authorizing the redemption of outstanding general obligation bonds, Series 2011A of the Village of Palatine, Illinois.

ATTACHMENTS:

- Redemption Resolution - 2011A
- Cert of Reduction of Taxes - Series 2011A
- Election to Redeem GOBS 2011A

RESULT:	ADOPTED BY VOICE VOTE [UNANIMOUS]
MOVER:	Jim Schwantz, Mayor
SECONDER:	Scott Lamerand, District 2 Councilman
AYES:	Schwantz, Millar, Lamerand, Solberg, Kozlowski
ABSENT:	Doug Myslinski, Brad Helms

RESOLUTION NO. R - ____ - 19**A RESOLUTION AUTHORIZING THE REDEMPTION OF OUTSTANDING
GENERAL OBLIGATION BONDS, SERIES 2011A OF
THE VILLAGE OF PALATINE, ILLINOIS**

WHEREAS, on June 20, 2011, the Village of Palatine adopted ordinance O-71-11 authorizing the issuance of General Obligation Bonds, Series 2011A, of the Village of Palatine, Illinois; and

WHEREAS, the Village continually reviews its outstanding debt for opportunities to reduce the debt burden and cost of borrowing to its residents; and

WHEREAS, the Series 2011A Bonds ("the Bonds") are redeemable upon giving notice in the manner provided in the ordinances authorizing the issuance of the Bonds; and

WHEREAS, the Village has identified available cash on hand to redeem the outstanding balance of the Bonds to reduce outstanding debt by \$3,000,000 and provide interest savings of \$200,000.00;

NOW, THEREFORE, BE IT RESOLVED, by the Mayor and Village Council of the Village of Palatine, Cook County, Illinois, as follows:

SECTION 1: The outstanding \$3,000,000 General Obligation Bonds, Series 2011A maturing in the years 2020 through 2023, be and the same are hereby redeemed as of December 1, 2019.

SECTION 2: The Finance Director is hereby authorized and directed to instruct Wells Fargo Bank, N.A., the paying agent and bond registrar for the Bonds, to give notice of their redemption to the Depository Trust Company and provide a copy of the redemption notice as an event disclosure on the Electronic Municipal Market Access ("EMMA") system of the Municipal Securities Rulemaking Board.

Attachment: Redemption Resolution - 2011A (Redemption Resolution - 2011A)

SECTION 3: The Finance Director is hereby authorized and directed to prepare and file Certificates of Reduction with the Cook County Clerk to reduce the property taxes heretofore levied for the payment of the Bonds.

SECTION 4: This resolution shall be operative and effective upon its passage.

ADOPTED by the Village Council of the Village of Palatine, Illinois, this 16th day of September 2019.

AYES: _____ **NAYS:** _____ **ABSENT:** _____ **PASS:** _____

APPROVED by me this 16th day of September 2019.

ATTESTED and FILED in the
Office of the Village Clerk this
16th day of September 2019.

Mayor of the Village of Palatine

Village Clerk

STATE OF ILLINOIS)
) ss
 COUNTY OF COOK)

**CERTIFICATE OF REDUCTION OF TAXES HERETOFORE LEVIED FOR THE
 PAYMENT OF GENERAL OBLIGATION BONDS SERIES 2011A
 OF THE VILLAGE OF PALATINE ILLINOIS**

TO THE COUNTY CLERK OF COOK COUNTY, ILLINOIS

I, the undersigned, being the duly qualified and acting Finance Director of the Village of Palatine, Illinois ("the Village") having been directed and authorized by a resolution of the Village to prepare and file this Certificate, do hereby certify and notify you as follows:

- 1) Pursuant to an ordinance of the Village adopted by the Mayor and Village Council of the Village on June 20, 2011 and entitled: "An Ordinance Authorizing the Issuance of General Obligation Bonds, Series 2011A and General Obligation Refunding Bonds, Series 2011B, of the Village of Palatine, Illinois", the Village issued two series of general obligation bonds (the "2011 Bonds") including the General Obligation Bonds, Series 2011A (the "Series 2011A Bonds") and levied taxes in amounts sufficient to pay maturing principal of and interest on the 2011 Bonds maturing on or after December 1, 2019 as set forth below:

<u>Tax Levy Year</u>	<u>A Tax Sufficient to Produce the Sum of:</u>
2019	\$994,000.00
2020	1,067,000.00
2021	1,035,750.00
2022	103,250.00

- 2) The Village has made provision for the payment and redemption of the \$3,000,000 principal amount of the Series 2011A Bonds maturing after December 1, 2019 from cash reserves on hand.
- 3) You are hereby notified and directed to make proper reduction of the taxes heretofore levied for the tax levy years 2019 to 2022 both inclusive as set forth in paragraph herein for payment of the 2011 Bonds by abating such taxes as set forth below:

Attachment: Cert of Reduction of Taxes - Series 2011A (Redemption Resolution - 2011A)

<u>Tax Levy Year</u>	<u>Original Tax Levy</u>	<u>Amount to be Currently Abated</u>	<u>Remaining Tax Levy</u>
2019	\$994,000.00	\$994,000.00	-
2020	1,067,000.00	1,067,000.00	-
2021	1,035,750.00	1,035,750.00	-
2022	103,250.00	103,250.00	-

IN WITNESS WHEREOF, I have hereunto affixed my official signature this 1st day of October 2019.

Paul D. Mehring
Finance Director
Village of Palatine

**VILLAGE OF PALATINE, ILLINOIS
ELECTION TO REDEEM
GENERAL OBLIGATION BONDS, SERIES 2011A**

October 1, 2019

Wells Fargo Bank, N.A.
Minneapolis, Minnesota

Series 2011A Bonds

As paying agent and bond registrar for the General Obligation Bonds, Series 2011A, of the Village of Palatine, Illinois (the "Village") you are hereby notified that the Village has irrevocably elected to redeem the following bonds of said series, on December 1, 2019, at a redemption price of par.

\$3,000,000 General Obligation Bonds, Series 2011A

DATED: July 7, 2011
PRINCIPAL DUE: December 1
INTEREST DUE: June 1 and December 1
MATURITIES AND INTEREST RATES:

<u>Year</u>	<u>Principal Amount</u>	<u>Interest Rate</u>
2020	\$900,000	3.000%
2021	1,000,000	3.125
2022	1,000,000	3.250
2023	100,000	3.250

You are hereby instructed to give notice of the redemption of said Series 2011A Bonds to the Depository Trust Company on October 15, 2019 and on October 15, 2019 to provide a copy of the redemption notice in an electronic format as an event disclosure on the Electronic Municipal Market Access ("EMMA") system of the Municipal Securities Rulemaking Board.

Please take notice that an additional \$900,000 principal amount of the 2019 maturity of Series 2011A Bonds is subject to mandatory sinking fund redemption on December 1, 2019.

Consider a Motion Authorizing the Village Manager to Approve the Purchase of an Asphalt Roller

BACKGROUND:

As part of the 2019 Capital Equipment Replacement Budget, the Village Council has appropriated \$55,620 in funds for the replacement of a 1999 Ingersoll Rand asphalt roller (T-268). The roller is recommended for replacement after an inspection, evaluation, and life-cycle cost analysis. As part of the vehicle replacement schedule, this roller will be sent to auction when decommissioned.

This existing roller is the largest width drum and heaviest in the fleet. It is used primarily for street paving. It has a 52" wide drum and an 8,000 pound working weight. The Village also has a smaller 47" wide roller with 6,000 pound working weight, and a 35" wide roller with 3,400 pound working weight. Due to its larger size, it is more efficient and requires less compaction passes than the smaller rollers, which are used primarily for small tasks such as spot patching and driveway apron paving.

KEY ISSUES:

- Staff reviewed and had demonstrations from three roller manufacturers (Bomag, Caterpillar, and DynaPac) last year when replacing the 47" wide roller. Based on a demonstration during an actual paving operation, local availability of parts and service and company history, a Caterpillar model was chosen. This proposed replacement will be very similar to the three models Staff evaluated last year.
- Since it is essentially a larger version of the roller purchased last year, a Caterpillar model is once again recommended. Staff requested pricing from Altorfer Caterpillar as the local dealer for this area. There is a current Sourcewell (formerly NJPA) joint-purchase contract for the CB36B roller. The contract pricing for a new 2019 CB36B machine through Altorfer Cat is \$59,886.
- Altorfer related that they have a demo machine identical to the brand new machine they quoted. It only has 12 hours on it and is for sale at \$57,854, which amounts to a savings of \$2,032. Staff feels that 12 hours represents very little usage, and the machine will still come with a complete one year / unlimited hours full warranty. Therefore, Staff recommends purchasing the demo machine.

ALTERNATIVES:

1. Authorize the Village Manager to approve the purchase of one 2019 Caterpillar CB36B asphalt roller through the Sourcewell Contract.
2. Refer back to Staff with comments.

RECOMMENDATION:

Staff recommends authorizing the Village Manager to approve the purchase of one 2019 Caterpillar CB36B asphalt roller with 12 hours on it through the Sourcewell Contract #032119 from Altorfer Caterpillar of Elmhurst, Illinois in the amount of \$57,854.

BUDGET IMPACT:

Funds in the amount of \$55,620 have been appropriated in the 2019 Capital Equipment

Replacement Budget to accommodate this purchase. \$5,150 from a trailer purchase that was deferred this year can cover the \$2,234 shortfall.

ACTION REQUIRED:

Motion to authorize the Village Manager to approve the purchase of one 2019 Caterpillar CB36B asphalt roller with 12 hours on it through the Sourcewell Contract #032119 from Altorfer Caterpillar of Elmhurst, Illinois in the amount of \$57,854.

RESULT:	APPROVED BY CONSENT VOTE [UNANIMOUS]
MOVER:	Scott Lamerand, District 2 Councilman
SECONDER:	Tim Millar, District 1 Councilman
AYES:	Tim Millar, Scott Lamerand, Greg Solberg, Kollin Kozlowski
ABSENT:	Doug Myslinski, Brad Helms

Consider a Motion Authorizing the Village Manager to Approve the Purchase of a Heavy Duty In-Ground Truck Lift

BACKGROUND:

As part of the Capital Equipment Replacement Budget for 2020, Staff has requested \$140,000 in funds for the replacement of a heavy duty in-ground truck lift (E-156) in the fleet services shop. This lift is used to raise large dump trucks, fire trucks, and heavy equipment to perform repairs. The existing lift has become increasingly unreliable and has reached the end of its service life. It did not pass its annual certification recently due to safety locks not working properly and leakage from the hydraulic cylinders. The lift was originally installed when the Combined Service Facility was built in 1990.

KEY ISSUES:

- Staff had proposed replacement of this lift in the 2020 Capital Budget, but due to the current condition and failure to pass a certification inspection recently, Staff recommends replacing this lift in 2019.
- The current lift is manufactured by Rotary Lift of Madison, Indiana, which has been manufacturing lifts since 1925 and are well known in the industry.
- Typically an in-ground lift replacement requires complete concrete removal and excavation of the bay floor, and forming and pouring new concrete for the lift assembly. Rotary Lift offers an innovative way to replace an underground lift such as this by utilizing the existing concrete structure.
- It begins by inspecting the existing concrete structure to determine if it is a good candidate for this retrofit. The existing lift structure in fleet services has been inspected and it has been determined to be an excellent candidate for this retrofit. Rotary Lift is the only manufacturer offering this procedure. It is estimated to save up to 50% of the cost for a lift replacement.
- Rotary Lift has a joint-purchase contract through Sourcewell, of which the Village is a member. Staff requested a Sourcewell quote for a Rotary retrofit underground lift. The total cost is \$129,511.68, which includes the new equipment and the labor to remove the existing lift and install the new lift. The new lift would be expected to last at least 30 years.

ALTERNATIVES:

1. Authorize the Village Manager to approve the purchase and installation of a Rotary retrofit lift through the Sourcewell Contract.
2. Refer back to Staff with comments.

RECOMMENDATION:

Staff recommends authorizing the Village Manager to approve the purchase and installation of a Rotary retrofit lift through Sourcewell Contract #061015-RRL from Rotary Lift of Madison, Indiana in the amount of \$129,512.

BUDGET IMPACT:

The use of fund balance is requested to accommodate this proposed purchase. This item has been part of our multi-year plan with the targeted expense originally planned for 2020. Authorizing the accelerated request at this time will result in a corresponding reduction in the capital equipment purchase request for 2020.

ACTION REQUIRED:

Motion to authorize the Village Manager to approve the purchase and installation of a Rotary retrofit lift through Sourcewell Contract #061015-RRL from Rotary Lift of Madison, Indiana in the amount of \$129,512.

RESULT:	APPROVED BY CONSENT VOTE [UNANIMOUS]
MOVER:	Scott Lamerand, District 2 Councilman
SECONDER:	Tim Millar, District 1 Councilman
AYES:	Tim Millar, Scott Lamerand, Greg Solberg, Kollin Kozlowski
ABSENT:	Doug Myslinski, Brad Helms

Consider a Resolution Authorizing the Redemption of Outstanding General Obligation Bonds, Series 2011A of the Village of Palatine, Illinois

BACKGROUND:

The Village continually reviews its outstanding debt for opportunities to reduce the debt burden and cost of borrowing to its residents.

KEY ISSUES:

- Staff has identified available cash on hand to redeem \$3,000,000 outstanding General Obligation Bonds, Series 2011A on December 1, 2018.
- The redemption of these bonds will:
 - 1) Reduce outstanding debt by \$3,000,000; and
 - 2) Provide an interest savings of \$200,000.
- The 2011A redemption is taking advantage of cash on hand as approved at the annual financial review from: the CY 2018 General Fund Excess Reserves, \$100,000 of Economic Stabilization Reserve, and General Debt Service Fund Reserves.

RECOMMENDATION:

Staff recommends that these bonds be redeemed on December 1, 2019.

ACTION REQUIRED:

Motion to adopt a resolution authorizing the redemption of outstanding general obligation bonds, Series 2011A of the Village of Palatine, Illinois.

RESULT:	APPROVED BY CONSENT VOTE [UNANIMOUS]
MOVER:	Scott Lamerand, District 2 Councilman
SECONDER:	Tim Millar, District 1 Councilman
AYES:	Tim Millar, Scott Lamerand, Greg Solberg, Kollin Kozlowski
ABSENT:	Doug Myslinski, Brad Helms

Consider an Ordinance Granting Setback Variations, an Accessory Structure Floor Area Variation, and a Lot Coverage Variation all to Permit Various Improvements at 1360 E. Joan Drive

This item was originally reviewed during the July 15, 2019 Village Council meeting. Since that meeting, the Petitioner has submitted all of the required dimensions and surveyed square footages of the non-conforming areas of the deck, driveway, and brick paver walkway. In order to meet the Code requirements, the Petitioner will remove the extended portions of the deck and paver walk. This eliminates 2 of the initial 8 variations requested. Based upon the review of the resubmitted information, Staff confirmed the square footage of the removed portions of the deck and paver walk. The Petitioner will remove the following:

	Approximate Square Footage of Non-compliant Areas
Deck	80 sq. ft.
Paver Walk	24 sq. ft.

With regard to the driveway extension, a portion of the driveway is set back 1.7 feet, instead of the minimum required 2 feet. In order to comply with the Code requirements, it would be necessary to remove approximately 2 square feet of the driveway. The Petitioner would like to maintain the driveway in its current condition. The driveway was improved in conjunction with a 2005 building permit.

With the proposed removal of portions of the existing deck and paver patio, a lot coverage variation for 47.67% (max 45% permitted) would still be required. This does not include the 2 square feet for the driveway the Petitioner also wishes to maintain (resulting in a lot coverage of 47.68%). In order to comply with the maximum lot coverage allowed, an additional 226 square feet of impervious surfaces would have to be removed. The Village Engineer did not identify any specific storm water concerns with this proposal.

BACKGROUND:

With the proposed changes, the Petitioner is now requesting the following relief:

1. Variation to permit an above-ground pool to be set back 15 feet from the rear lot line instead of the required 25 feet;
2. Variation to permit an attached pergola to be set back 20 feet from the rear lot line instead of the required 25 feet;
3. Variation to permit the aggregate floor area of all permitted accessory structures to be 22% instead of the maximum permitted 10%;
4. Variation to permit a driveway to be set back 1 foot from the side lot line

instead of the required 2 feet;

5. Variation to permit lot coverage to be 48% instead of the maximum permitted 45%; and
6. Variation to permit a pergola attached to the principle structure to be setback 7 feet from the side lot line instead of the required 10 feet.

KEY ISSUES:

- The Subject Property, zoned R-2 Single-Family Residential, contains approximately 8,500 square feet of land.
- The Petitioner made improvements to his property, without obtaining the required permits. The Village became aware of this in July 2018, through a proposed deck expansion, and then followed up with the Petitioner. **The Petitioner continued with the deck expansion, after the Village provided notification of the building permit requirement.** When the Petitioner applied for a building permit for the deck expansion, Staff then became aware of multiple instances of other work completed without the required building permits. The property was cited and is within the adjudication process. The following work was completed outside of the building permit process:
 1. **Deck Expansion:** The deck was expanded and is set back 6 feet from the side lot line, instead of the minimum required 10-foot setback. The ZBA did not recommend this Variation and Staff concurs. If the Village Council recommends its approval, Staff is recommending a condition requiring the execution of a hold harmless letter in a manner acceptable to the Village Attorney to provide the necessary access to the rear yard utility easement. **This is no longer applicable, as the revised plans indicate the removal of a portion of the deck that encroaches into the required setback.**
 2. **Above-Ground Pool:** An above-ground pool was added to the backyard and is set back 15 feet from the rear lot line instead of the minimum required 25 feet. A pool, when attached to the principal structure and more than 16 inches in height, shall be setback a minimum of 25 feet from the rear lot line. The Petitioner replaced a previous pool with a new pool.
 3. **Concrete Patio & Walkway:** A concrete patio and walkway were constructed in the rear yard. While these improvements meet the required setbacks, they factor into the overall lot coverage, which exceeds the maximum 45%.
 4. **Pergola:** A pergola was constructed and attached to the principle structure over the concrete patio. Per the zoning ordinance, a pergola, when attached to the principle structure and more than 16 inches above grade, shall be setback 25 feet from the rear lot line and cannot encroach into the required side yard. The pergola is set back 20 feet from the rear lot line and 7 feet from the side lot line. Although it does

not meet the required side yard setback, it exceeds the setback of a pre-existing addition to the principal structure.

5. Driveway Expansion: The driveway was expanded and is set back 1.7 feet from the side lot line, instead of the minimum required 2-foot setback.
6. Brick Paver Walkway: The brick paver walkway was constructed on the east side of the subject property. The walkway is set back 1.4 feet from the side lot line, instead of the minimum 2-foot setback. **This is no longer applicable, as the revised plans indicate the removal of a portion of the paver walkway, which encroaches into the required setback.**

- The table below outlines the improvements requiring zoning relief with the existing and required setbacks.

Required Relief	Existing Setback	Required Setback
Deck expansion (pergola)	6 feet (7 feet)	10 feet
Above-ground pool	15 feet	25 feet
Brick paver walkway (on the east side of the concrete patio)	1.4 feet	2 feet
Driveway expansion	1.7 feet	2 feet
Pergola	20 feet	25 feet

- As a result of these improvements, not including the portions of the deck and paver walkway, which the Petitioner intends to remove, the lot coverage is calculated at 48%, exceeding the maximum permitted 45%. The existing building coverage is approximately 28% and meets Code.
- Per the Zoning Ordinance, the maximum aggregate floor area of all permitted accessory structures is 10%. The aggregate floor area includes the deck expansion, above-ground pool, and pergola and total 22% (685 square feet).

ALTERNATIVES:

- Approve the Variations for lot coverage and setback relief to permit an above-ground pool, pergola, concrete patio and walkway, and driveway expansion
- Do not approve the Variations for lot coverage and setback relief to permit an above-ground pool, pergola, concrete patio and walkway, and driveway expansion

RECOMMENDATION:

Based upon the proposed site plan changes and withdrawn Variations, Staff recommends **action at the discretion** of the Council of the following variations:

- An above-ground pool to be set back 15 feet from the rear lot line, instead of the required 25 feet to permit;

- A pergola to be set back 20 feet from the rear lot line, instead of the required 25 feet;
- A pergola attached to the principle structure to be setback 7 feet from the side lot line, instead of the required 10 feet; and
- To permit the aggregate floor area of all permitted accessory structures to be 22%, instead of the maximum permitted 10%.
- To permit a driveway to be set back 1 foot from the side lot line, instead of the required 2 feet.
- To permit lot coverage to be 48% instead of the maximum permitted 45%; and

ACTION REQUIRED:

A motion to approve the identified variations for the property at 1360 E. Joan Drive.

RESULT:	MOTION CARRIED BY ROLL CALL [UNANIMOUS]
