REGULAR MEETING

8:30 AM

I. CALL TO ORDER

President Abbinanti called the meeting to order at 8:33AM.

II. ROLL CALL

PRESENT :	Firefighter/Paramedic Joseph Duer, Firefighter/Paramedic Dale Abbinanti, Firefighter/Paramedic Robert Loverher, Firefighter/Paramedic Matt Webb, Foreign Fire Tax Board Member Adam Rothenberg
ABSENT :	Firefighter/Paramedic Eric Jordan
ARRIVED :	

Also Present: Chief Mackeben, DvC Kluzek, Cpt Mulvey, FF Jacquette, FF Steuber, FF Roman, FF Wolthousen,

III. APPROVAL OF MINUTES

A. Foreign Fire Tax Board — Special Meeting — October 2, 2025

- Approved by Voice Vote

RESULT:	MOTION BY VOICE VOTE
MOVER:	FF Loverher
SECONDER:	FF Steuber
AYES:	All
NAYS:	None

IV. RECOGNITION OF GUESTS

- DvC Kluzek presented the year-end 2025 Training Division Budget and FFTB funding report. The Palatine Fire Department allocated \$50,000 for training tuition and fees and \$80,000 for overtime. The FFTB provided an initial annual supplemental training award of \$20,000, followed by an additional \$15,000 mid-year, for a total of \$35,000 in supplemental funding, \$28,000 of which was expended on tuition and fees.

Looking ahead to 2026, the Training Division has again been budgeted \$50,000. Due to the efforts of FF Roman, who coordinated a 17-member group to attend the Responder Intervention Team Rescue Technician course at IFSI, approximately \$46,000 of that budget has already been committed. As a result, the Training Division will rely heavily on FFTB funding to support additional training tuition opportunities throughout the coming year.

- FF Roman presented a request to revamp all five fire station kitchens by replacing utensils, dishes, and cookware. In addition to the \$2,000 previously approved for kitchenware at the last meeting, FF Roman requested an additional \$5,600 to complete the upgrades.
- FF Roman also presented the renewed request for cancer screening. FF Roman and the Palatine Firefighters Cancer Prevention / Early Detection Committee recommend a voluntary ultrasound screening service provided by United Diagnostics that is offered as a mobile test that can be conducted onsite at the Palatine Fire Department. Their cancer and disease assessment includes ultrasound screenings such as echocardiograms to evaluate heart valve function and ejection fraction, carotid Doppler, thyroid, abdominal aortic aneurysm (AAA), liver and spleen, gallbladder, kidneys and urinary bladder, which is included in the \$350 per person cost. This would be on a voluntary basis, where firefighters would have to sign up to participate. The service also includes licensed healthcare provider follow-up on abnormal findings, a second outreach to help coordinate care when needed, and aggregate data reporting provided to the host organization. FF Roman and the committee are requesting that the FFTB consider financially covering the cost per member for those who choose to participate.
- Lt Rothenberg spoke on behalf of FF Lefebvre who, in the spirit of cancer prevention, submitted a request for spare helmet liners for every Palatine firefighter in line with the current policy of two sets of fire gear, so that after exposure to smoke or contaminants, we can wash our gear, including our helmet liners, and have a spare set of gear to change into. If approved, this request would be to provide current members with a spare helmet liner and then future members or needs would fall under the responsibility of the quartermaster.

D. OTHER ITEMS

VI. OLD BUSINESS

President Abbinanti called for a motion to approve line items A through B.

- Approved by Voice Vote

RESULT:	MOTION APPROVED BY VOICE VOTE
MOVER:	Kohl Steuber
SECONDER:	Nick Jacquette
AYES:	Joseph Duer, Dale Abbinanti, Robert Loverher, Adam Rothenberg, Kohl Steuber, Nick Jacquette
NAYS:	None

A. FFTB TRUSTEE ELECTION RESULTS

President Abbinanti presented the 2025 FFTB Election Results regarding the positions previously held by FF Matt Webb and FF Eric Jordan. FF Eric Jordan chose not to run, but Matt Webb ran as the incumbent, in addition to FF Nick Jacquette and FF Kohl Steuber being nominated. President Abbinanti announced that FF Nick

Jacquette and Kohl Steuber were the winners of the election. FF Duer made a motion to accept the election results, but President Abbinanti insisted that we would hold off on a vote, that his direction from Doris Sadik was that the FFTB doesn't have to vote by line item, simply by section.

B. CANCER SCREEN REQUEST

President presented the Cancer Screening Request and explained that the FFTB has been anticipating a large expense item regarding cancer screening and has sufficient funds to cover something like this. President Abbinanti gathered a consensus from the FFTB that this is a slam dunk. President Abbinanti called for a motion to accept the election results and approve the cancer screening, not to exceed \$35,000.00.

VII. NEW BUSINESS

President Abbinanti called for a motion to approve line items A through G.

- Approved by Voice Vote

RESULT:	MOTION APPROVED BY VOICE VOTE
MOVER:	Robert Loverher
SECONDER:	Adam Rothenberg
AYES:	Joseph Duer, Dale Abbinanti, Robert Loverher, Matt Webb, Adam Rothenberg
NAYS:	None

B. TRAINING DIVISION 2026 UPDATE

President Abbinanti brought up a concern with the FFTB covering hotel rooms and per diem for out-of-town training opportunities, especially the challenges of reimbursing versus paying the hotels directly. Usually hotels require a credit card on file to reserve, the risk of cancellations, etc. Discussion led to the conclusion that reimbursements could be distributed easier directly to the members.

C. HELMET LINER REQUEST

President Abbinanti shared that the spare helmet liners are something to help out the guys and that it's a no-brainer, not to exceed \$6,000.00.

D. KITCHEN REQUEST

Regarding the Kitchen Supply Request, President Abbinanti wanted to ensure each kitchen is properly outfitted and offered an additional \$400 beyond the original requested amount of \$5,600.00, not to exceed \$6,000.00.

E. LEAF BLOWER REQUEST

Chief Mackeben offered that there is an online deal regarding the Milwaukee Leaf Blowers and battery combo. The administration is considering a future purchase request of the Milwaukee battery-powered shop vacs for each of the stations.

President Abbinanti clarified the Milwaukee Leaf Blower request is not to exceed \$2,000.00.

F. OFFICE CHAIRS REQUEST

Regarding Matt Webb's request for new office chairs for the department, Chief Mackeben confirmed that station furniture would normally fall under the Building & Grounds budget, but that they have already exhausted their budget for the year. President Abbinanti, hearing no opposition, stated the approved amount would not exceed \$4,000.00 for new office chairs for the stations.

G. 2026 CAFETERIA PLAN

In anticipation of the 2026 Cafeteria Plan, President Abbinanti explained that historically, members have been allotted \$200 in the past, but with the increase in costs, he recommends increasing the 2026 Cafeteria Plan to \$300 per member.

A. FFTB TRUSTEE ASSIGNMENTS

Recognizing the new FFTB Trustees and addressing the need to assign new roles to the new and existing trustees, President Abbinanti made the following nominations for trustee assignments:

- President - Dale Abbinanti
- Vice President - Adam Rothenberg
- Secretary - Joseph Duer
- Treasurer - Kohl Steuber
- Trustee - Robert Loverher
- Trustee - Nick Jacquette

Appendix

Readiness

Your Readiness Score ranges from 0-100 and tells you, at a glance, if you are ready to face greater challenges or if you need some recovery and rest.

A holistic picture of health.

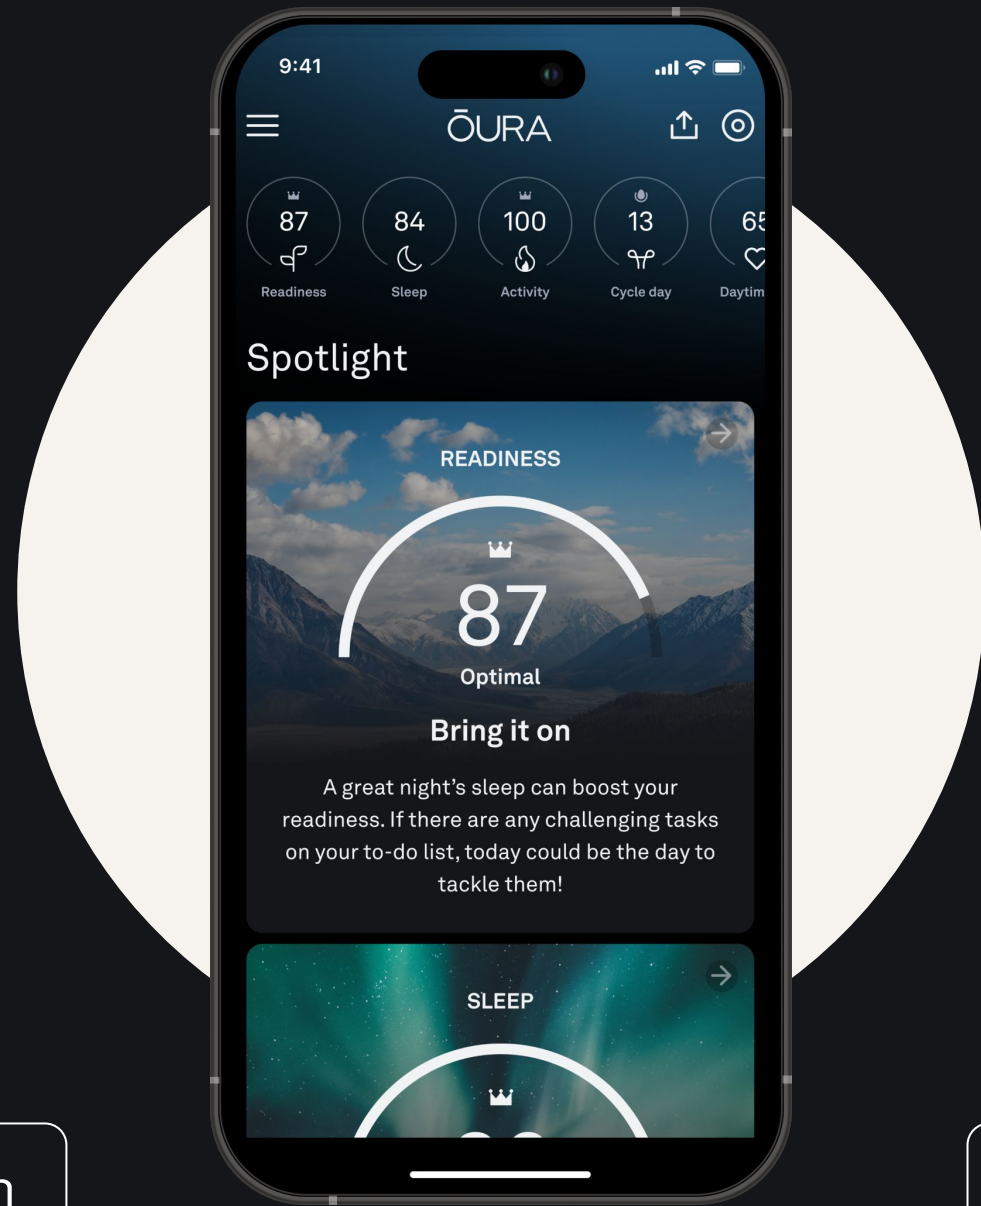

While many wearables focus on today or last night, Oura believes that health is a journey for long-term balance and places a unique emphasis on how your health is trending over time.

The sum of seven daily contributors make up the Readiness Score. The contributors answer deeper questions about how the body is responding in three core pillars – sleep, activity, and body stress.

 Sleep

 Activity

 Heart Health

Your Readiness Score ranges from 0-100 and tells you, at a glance, if you are ready to face greater challenges or if you need some recovery and rest:

- 85 or higher: Optimal, you're ready for action!
- 70-84: Good, you've recovered well enough.
- Under 70: Pay attention, you're not fully recovered.

 Stress and Resilience

 Symptom Radar

 Meals

Sleep

Wearing Oura Ring is like having a sleep lab right on your finger. Wake up to in-depth analysis of your sleep patterns, and personalized tips to feel more energized everyday.

Sleep Score

Your Oura Sleep Score (1-100) tells you how well you sleep every night. Your score is based on how long you spent in each sleep stage and body signals. Understand if a specific activity, like a late coffee, can affect the quality of your rest.

Sleep Stages

You'll see if you're getting enough deep sleep, REM sleep, and light sleep every night, and you'll know how to improve it.

Overnight Avg SpO2

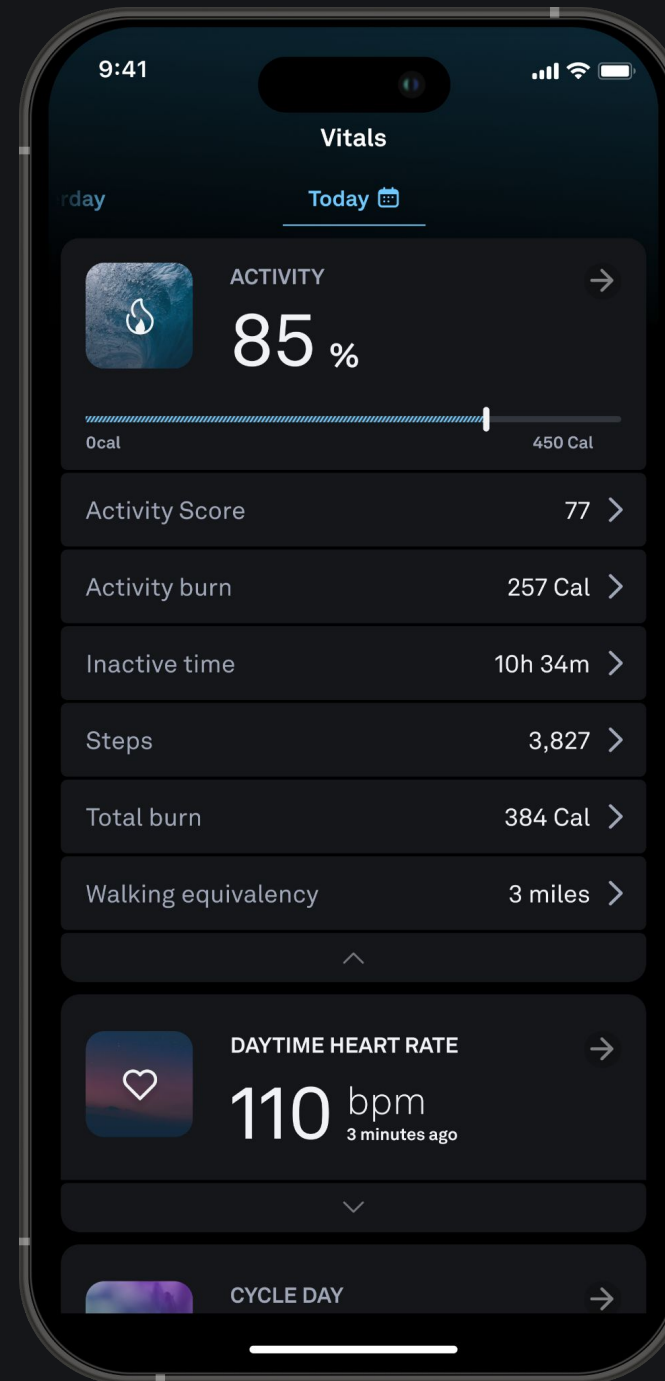

Oura can tell when you might be experiencing breathing disturbances which could impact your sleep or your health.

Sleep Guidance

Oura learns about your individual sleep patterns and shares personalized guidance on when to start winding down to improve your sleep quality.

Activity

Stay motivated with personalized daily activity goals. Oura tracks your heart rate, activity levels, and training frequency to tell if you're hitting your goals and to make sure you're giving your body enough recovery time.

Activity Score

Oura measures your daily activity including step count, training frequency, training volume, and more to create your Activity Score. Your Activity Score ranges from 1-100 and helps you strike a balance between activity and recovery.

Automatic Activity Detection

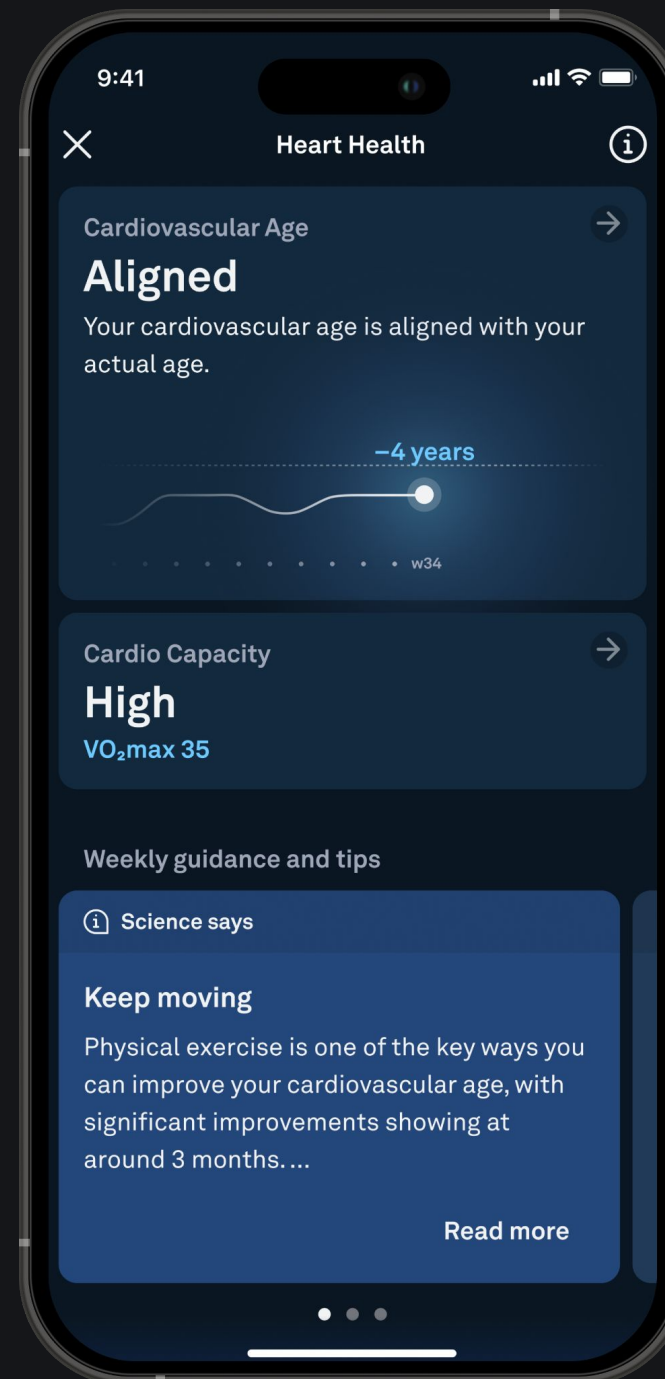

Just like it sounds, Automatic Activity Detection makes sure you get the credit you deserve for all your daily movement. It detects up to 40 different activities ranging from housework and walking the dog to more intense workouts. To better understand the impact of your activities, your heart rate zone updates based on your movement.

Personalized Activity Goals

Every day, Oura creates a Personalized Activity Goal based on your Readiness Score. It takes many factors into account like who you are, how you move, your age, weight, height, gender, and sleep. Depending on what's most important to you, you can see each day's activity goal or calorie burning goal.

Heart Health

Oura Ring accurately measures the health of your cardiovascular system, empowering you to adopt heart-healthy habits so you can live healthier, longer.

Estimated Cardiovascular Age

A holistic, non-invasive measure of your overall health; your CVA estimates the age of your cardiovascular system compared to your actual age. Oura provides insights into how your cardiovascular age is trending over time, with tips and guidance on how to improve your heart health long-term.

Cardio Capacity [VO2 Max]

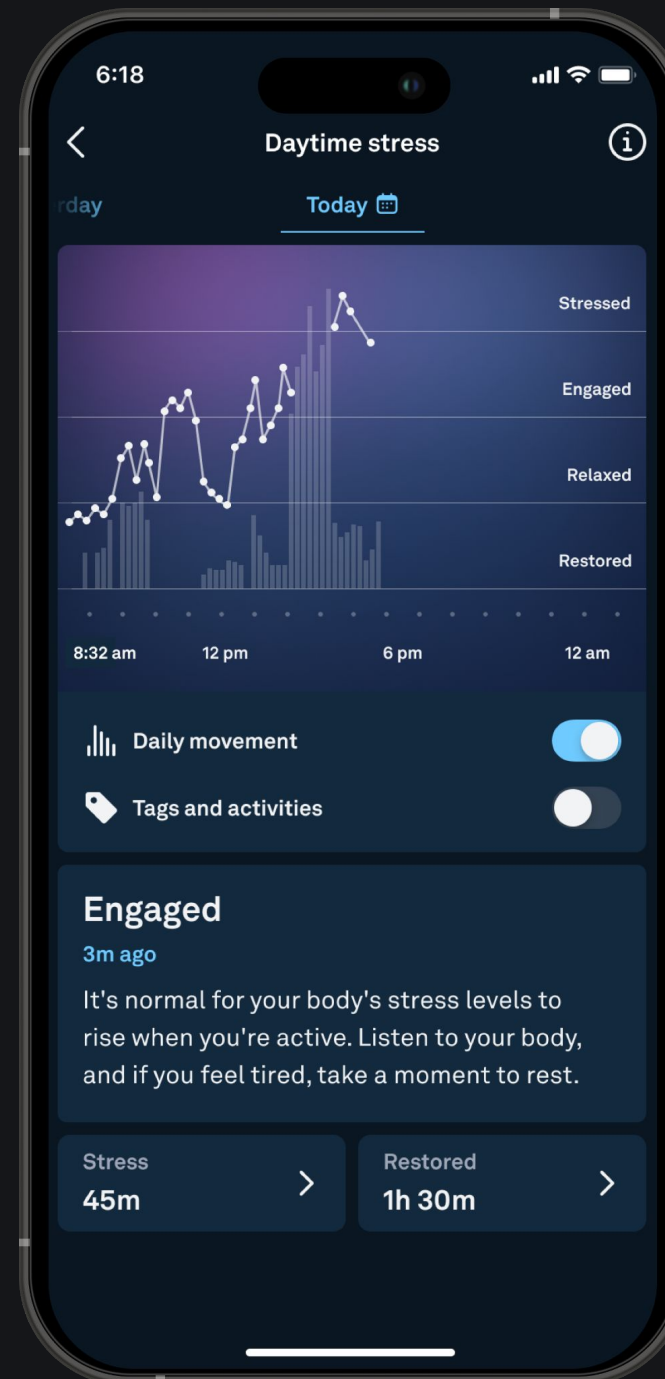

A measure of your aerobic fitness, VO2 Max tells you how efficiently your body uses oxygen while you're active. The higher your Cardio Capacity, AKA your VO2 Max range, the better your body is at keeping you going strong. A high Cardio Capacity is correlated with better longevity and quality of life.

Heart Rate

With Live Heart Rate, you can check in with your body at any time of day. A simple tap will give you immediate feedback on your heart rate in the present moment. Heart Rate can be accessed through the 24-hour heart rate graph.

Stress and Resilience

Stress happens. You can't avoid it but with Oura you can manage it better and rethink stress in a way that supports your personal growth.

Daytime Stress

Oura tracks your stress and recovery in real-time using your heart rate, HRV, and temperature trends. Find out what stresses you out and what helps you recover — so you can bounce back faster.

Stress Resilience

Get in-depth info about your progress and performance. Record your heart rate during workouts and receive post-exercise insights to see how your body reacts and how your workout impacts your sleep and readiness.

Putting your Daytime Stress in Context

Understand the relationship between your Daytime Stress with your daily movement, tags, and activities understand what causes moments of stress and what helps your recovery.

Women's Health

The ultimate body literacy tool for women at every stage of their lives, Oura Ring is equipping women to understand and take control of their health.

Cycle Insights

Understand your cycle and align with physical and mental needs during the different phases. Get a predicted Fertile Window and period estimate to feel more in control of your cycle and your health goals.

Pregnancy Insights

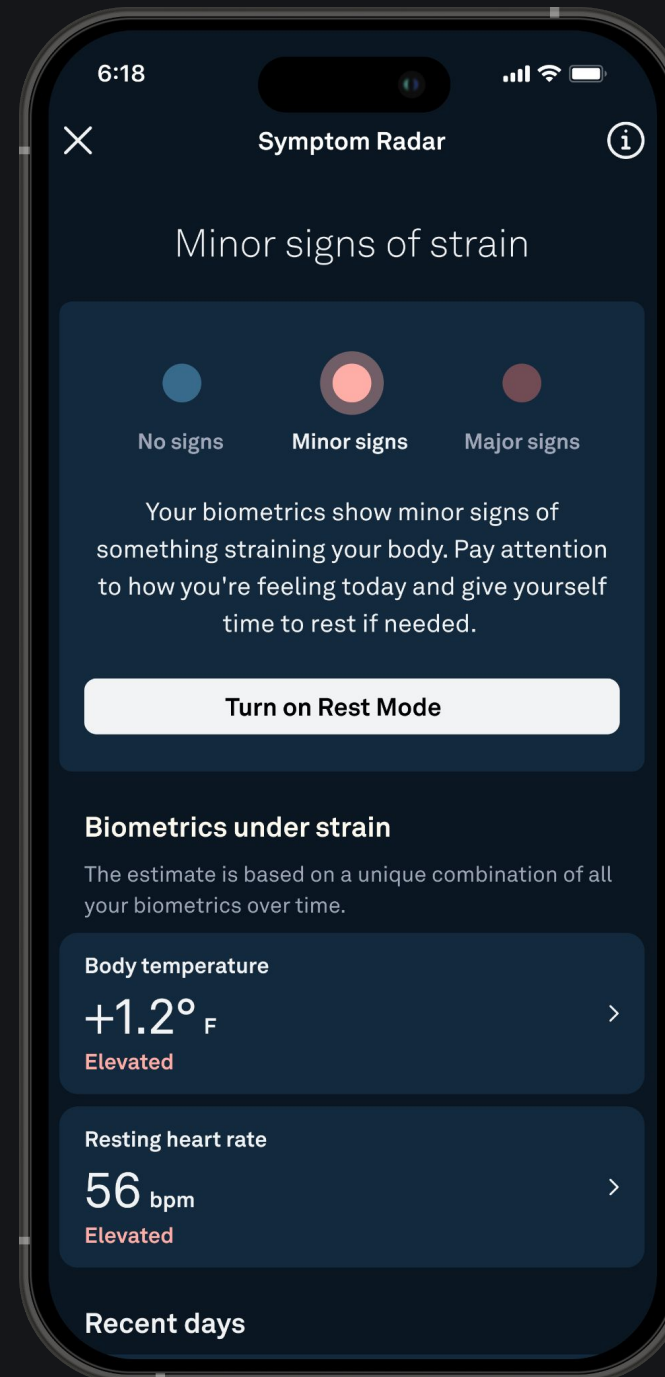

Weekly insights that help members understand what is normal or what to expect during each stage of a pregnancy, as well as tracking gestational age in the Oura App.

Partnerships

Oura works with leading companies like Natural Cycles, Flo and Clue to empower women with more complete information from the apps they already use and trust.

Symptom Radar

Stay mission ready. Oura's Symptom Radar can help you detect signs that you may be getting sick, so you can proactively prioritize rest and recovery and reduce the risk of spread.

Detect symptoms up to two days in advance of getting sick.

In the morning, when a member's data syncs in the Oura App, Symptom Radar reports on the presence of cold-and flu-like symptoms in 3 severity levels: none detected, moderate signs, major signs.

Integrates with Rest Mode to help you prioritize recovery.

If Oura detects moderate risk of early cold/flu symptoms, members will be prompted to activate Rest Mode to take time to recover.

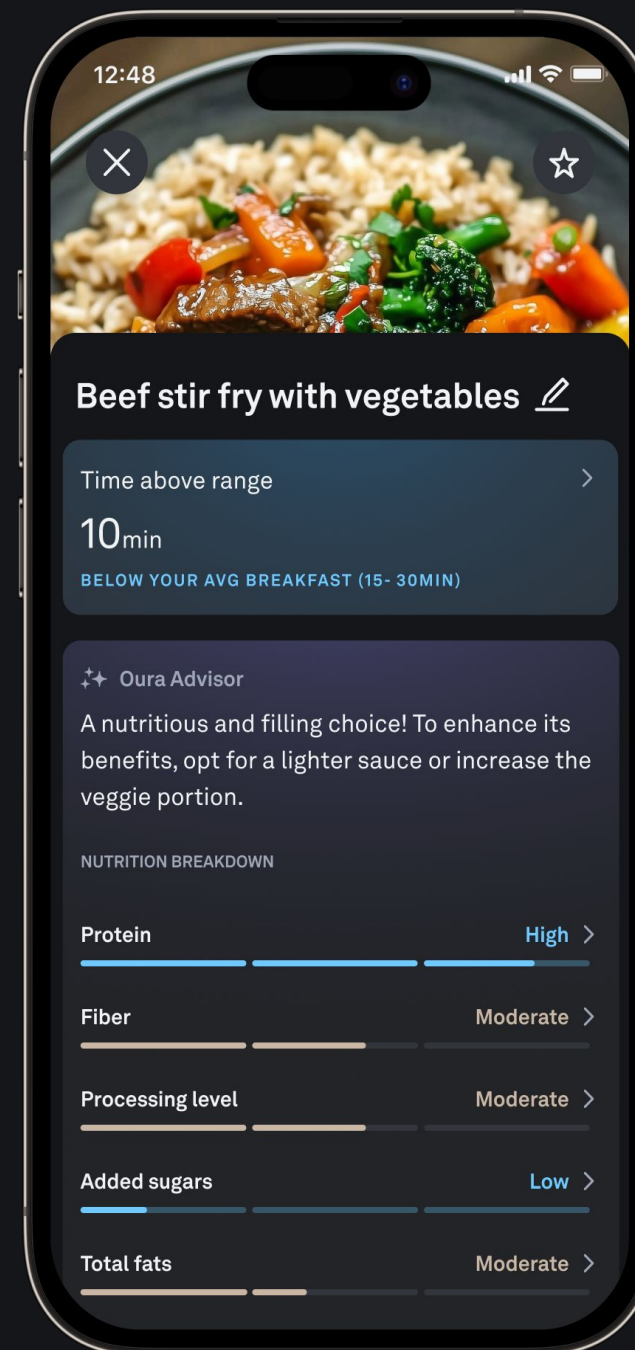

Best-in-class health sensing.

Oura's Symptom Radar algorithm pulls from the over 20+ biometrics Oura Ring tracks to inform whether or not you are showing signs of strain. Analyzing metrics like heart rate, HRV, temperature trends, rest time, and more to check in on your body so you can see if you might be getting sick.

Meals

Meal logging is the core functionality of the Meals feature. Using a Multimodal Large Language Model (LLM), Oura analyzes the dish to detect the different ingredients and nutritional contributors.

Available in US, English only

AI Meal Logging

Just snap a photo and AI analyzes the contents of the dish so you can get a fast, accurate overview of what you're eating. No need for tedious tracking.

Insights from Oura Advisor

Oura Advisor offers practical suggestions to improve meal choices. Whether it's simple swaps (e.g., whole-grain pasta for added fiber) or balanced adjustments (e.g., reducing processed ingredients), Oura Advisor helps members make informed decisions without rigid rules.

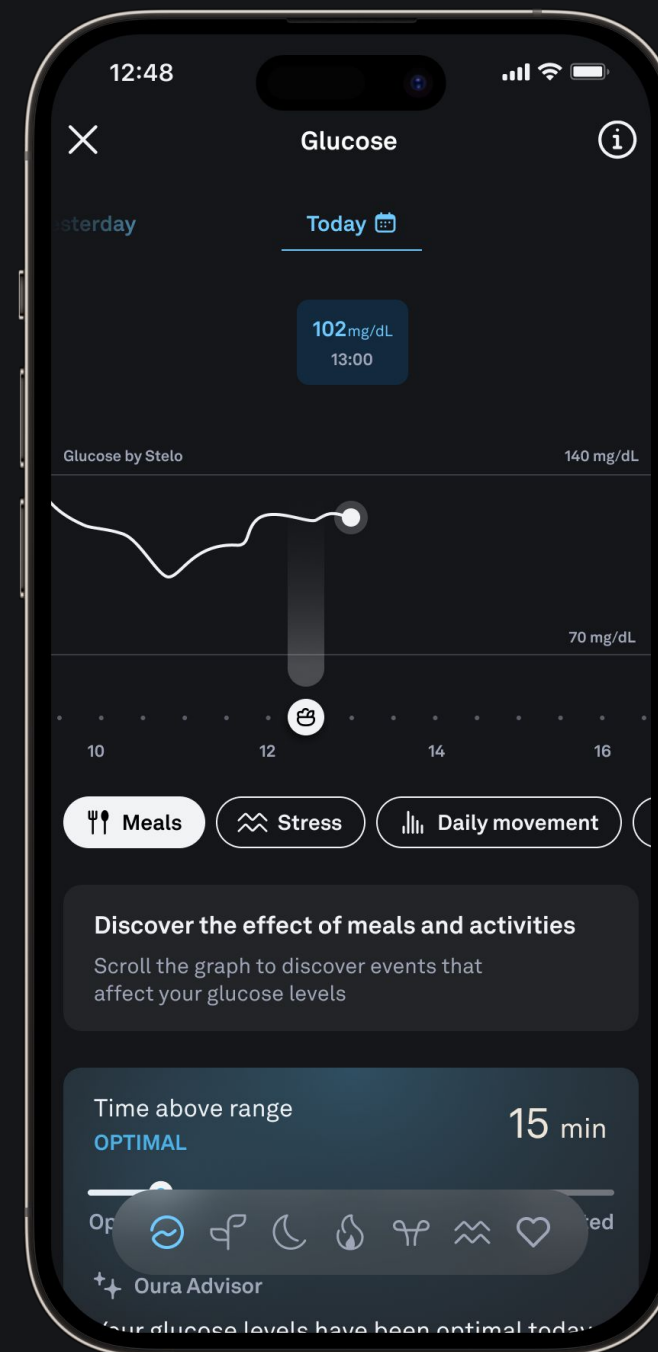

Nutritional Breakdown

With an easy-to-read breakdown, Oura members can better understand the nutritiousness of their diets. Oura presents each meal's key nutritional elements (protein, fiber, processing level, added sugars, total fats, and total carbs) and categorizes the nutritional contributors as high, moderate, or low in content.

Glucose

See how your meals, activity, sleep, and even stress impact your glucose levels –and how your glucose levels affect your holistic wellbeing.

Available in US, English only

Stelo Glucose Biosensor

Oura Members can now access Stelo by Dexcom, a leader in CGM technology, directly from Oura. Oura Members 18 and older who are not on insulin will now see their glucose levels directly in the Oura App.

Glucose Monitoring

In the Glucose tab in the Oura App, contextual graphs and insights from Oura Advisor help members understand the interplay between meals, stress, daily movement, tagged activities, and glucose levels so members can make more informed decisions and better manage their energy levels

Time Above Range

To make glucose insights more intuitive, Time Above Range tracks how long your glucose stays above your target.

Oura Advisor

Oura Advisor is a new, AI-powered way to interact with Oura, one that's all about starting a dialogue around your health and wellness.

AI-powered guidance that feels human

Oura Advisor is like your very own AI-powered personal health companion. Start a dialogue with Oura Advisor to understand your health data and get personalized advice to improve your sleep, movement, readiness, and stress. Choose the tone of voice you'd like Oura Advisor to take on, from supportive to more goal-oriented.

Understand your data

Oura Advisor helps you get the most out of your Oura Membership, by going deeper on scores, insights, and trends with you. It can answer general health questions, even pull in your latest Sleep, Readiness, Activity, or Resilience trend charts so you can discuss together. Whether you want simple health questions answered or a deep analysis of your Oura insights, Oura Advisor is there for you.

So what, Oura?

From nutritional guidance to personalized tips on getting better sleep, Oura Advisor makes it easier to know what to do with all that magical Oura data, so you can set yourself up to make real changes to your health.

Thank You

Product Description

The JBL PartyBox Club 120 turns any space to party, and vibe. Powerful JBL Pro Sound fills the air while an entrancing lightshow of starry lights, cool light trails, and strobe effects syncs to your beat. Instantly pair any Bluetooth device and stream your favorite party playlist, or use the mic and guitar inputs to share your own sound. Either way, you can steer the party's flow with fun interactive party effects using the JBL PartyBox app. A folding ergonomic handle makes the PartyBox Club 120 easy to take with you anywhere, and the splash-proof construction means it won't be troubled by a little rain. It delivers up to 12 hours of playtime—and if the party's still flowing by then, just swap out the replaceable battery and keep the music and lights going strong. For an even bigger time, stereo pair two JBL PartyBox Club 120s for a wider soundstage, or use the JBL PartyBox app to connect multiple JBL Auracast-enabled speakers wirelessly. Roll up to the party with the JBL PartyBox Club 120.

So worth every penny

Reviewed in the United States on December 17, 2025

Color: Black Size: JBL PartyBox Club 120 **Verified Purchase**

So far, after having a month, no issues. So happy! Very loud, quality loud, base booms, and can turn off the light show if need. The lights are great though during parties. There's a battery indicator light on top just behind the power button that lets you know how the battery is doing. The sound effects on top are fun, and all the microphone settings are cool too! I love how you can just push the volume to pause anything you're doing, instead of hurrying up on the app. I'm not testing the water resistant part. And last but not least, THE HANDLE. So convenient. My daughter and I love to use this with our projector, outside with a party, and it's the best at the beach.

Powerful Sound & Perfect for Any Party!

Reviewed in the United States on November 17, 2025

Color: Black Size: JBL PartyBox Club 120 **Verified Purchase**

The JBL PartyBox is absolutely incredible! The sound is super loud, clear, and full of bass, it easily fills up the whole room and even works great outdoors. The lights are a fun bonus and really make any gathering feel like a mini party.

Battery life is impressive, and I love that I can use it plugged in or wireless. Bluetooth connects instantly with no issues, and the controls are simple to use.

This speaker is honestly worth every penny. If you want something that brings big sound, great vibes, and reliable performance, the PartyBox is the way to go. Highly recommend!

Make sure to charge everything to its fullest before use.

What I liked about this JBL party box was the sound. The sound was amazing sounds like you have huge speakers. Has many options for the lights and when you're using the microphones. I only had one set back one of my microphones would not stay on. I went on my Amazon app submitted a return, actually a replacement I received the replacement in 2 days and then I returned my items at UPS. No problems with the return. No problems with the replacement microphones. I truly believe it is a great value for your money you cannot beat the sound anywhere. Definitely was a party pleaser for our get togethers. Download the app in your phone and it is so easy to control from your phone The battery life is long-lasting and if the battery is going low you just plug it in. The quality of the speaker is made very well very strong construction and it looks amazing no matter what room it's in. I think they only downfall is I cannot see the battery level of the microphones. But it does tell me how long the microphones will last on a full charge so that helps. Overall a great buy.

JBL Partybox W

Reviewed in the United States on December 19, 2025

You'll love it, just be aware even with the bass low end EQ all the way down it retains a good amount of bass still as you increase the volume, could be a good or bad thing depending on how and where you live. But I have no doubt out and about or at a good sized party this thing will do the job and still be super portable. I'm definitely getting a 2nd one for stereo pairing 🍷

1 320 is definitely louder, has more bass and will rock a house way more. But it's also bigger heavier and more to show up with. This hits that sweet spot for me, having 2 320s is great until you gotta move them

into your car for travel lol. These have really nice bass and fullness, 2 of these you can still light up the party or back yard easily. JBL did amazing balancing these partybox's for each step of the ladder.

Powerful, high quality sound!

We are very happy with all our JBL products. This one is perfect for the deck at the camper. Great sound to fill even our large outdoor area with great music. Very high quality sound, and the wireless microphones are perfect for singing around the camp fire. The app is helpful for personalizing the sound to your tastes, and the light features are pretty nice too. I would love to buy another and link them, but with the sound this one puts out there is no need for another!
